HYBRID TEA ROSE

Nocturne

Pat. 713

For those who like dark, velvety crimson Roses, Nocturne is unsurpassed. A marvelous grower, this vigorous, prolific variety never fails to give a display in any Rose garden. Rated as a top red Rose by the AARS, Nocturne has also been found to be one of the finest all-round Roses in our display garden. Its long, slender buds open to very large, many-petaled, long-lasting blooms. You will enjoy Nocturne both in your garden and as a cut flower. \$2.00 each.

106 Years of Service to American Gardeners

IMAGINE over a century of continuous experience in growing and selling the best varieties of hardy, northern-grown nursery stock! We are proud to have served four successive generations of satisfied customers.

At all our locations, we are not just salesmen, but we are nurserymen who take pride in our work and endeavor at all times to give you, our customers, the benefit of our long experience as well as the best of plant material available. When you order from this catalog, or from our branch locations, you will find that we are selling landscape sizes that are full, bushy and well rooted—not seedling stock.

We cordially invite you to visit our nearest and most convenient branch if you live or visit in the Midwest. There you will see the best of hardy, northern-grown stock and will be able to select your own plant material.

HYBRID TEA ROSE PEACE

Pat. 591

This world famous Rose has been acclaimed everywhere as the largest and most beautiful of all. Its huge, perfectly formed flowers, large sturdy plant, splendid coloring—all combine to make the perfect Rose. It is a marvelous multi-color Rose containing shades of yellow, pink, cream, gold and ivory-white. \$2.50 each; 3 or more, \$2.25 each.

OUR GUARANTEE

Ilgenfritz Nurseries, Inc., guarantees its nursery stock to be alive, healthy and true to name. Any stock that proves otherwise within 60 days after purchase will be replaced free of charge if that stock has been promptly and properly planted and cared for.

Fall-planted stock is guaranteed to live through the winter. Deciduous stock that fails to start in the spring will be replaced free of charge, if we are notified by June 15. Evergreens will be replaced at half price.

To receive replacement, please bring the customer copy of the original purchase to the office where the stock was purchased, or return it by mail.

ILGENFRITZ *Roses* FOR '53

are better than ever this year. Our NEW crop is better branched and more heavily caned than we have ever had. A garden of Ilgenfritz Roses will produce a mass of continuous color in your yard—and think of the pleasure of cutting your own blooms all summer long. All the Rose prices given on these pages are for grade No. 1 Roses.

Following the standards recommended by the American Association of Nurserymen, we clearly state all grades throughout our catalog. Our grades are always generous.

CRIMSON GLORY

Pat. 105

Here is the wonder red Rose. Not only is it considered to be the best red Rose, but with its 9.5 American Rose Society rating, it has the highest rating of *all* Roses. It has an excellent deep red bloom, remarkable fragrance, extreme vigor and is very heavy blooming. \$1.85 each; 3 or more, \$1.75 each.

EDITOR McFARLAND

K. A. VIKTORIA

ILGENFRITZ *Hybrid*

Sturdy and popular varieties that will introduce a mass of color to your garden—and at a low cost. Those listed here are all exceptionally fine ever-blooming kinds that have proved their dependability over the years in all climates.

AMI QUINARD

A very heavy-blooming, dark velvety red.

BETTY UPRICHARD

A popular bicolor with long buds combining shades of salmon-pink and coppery red.

CONDESA DE SASTAGO

An outstanding bicolor. The inside of the petals is coppery pink, while the reverse is golden yellow. A wonderful grower and a marvelous Rose.

COUNTESS VANDAL

The streamlined buds of this fragrant Rose perfectly combine exquisite shades of salmon, copper and gold.

EDITOR McFARLAND

Delightful pink Rose shading from deep apricot to coral-pink as the buds unfold.

ETOILE DE HOLLANDE

Very large, dark red Rose of wonderful fragrance. This is one of the best of the everblooming Hybrid Teas.

FRAU KARL DRUSCHKI

A very hardy Hybrid Perpetual with blooms continuing till late fall. It is white with flecks of pink at the base of the petals.

MRS. P. S. DU PONT

TALISMAN

GOLDEN CHARM

Beautiful buds open into numerous clear yellow blooms. This sturdy, showy plant aroused much comment in our gardens.

K. A. VIKTORIA

Magnificent old creamy white that is very double, very strong and very dependable.

McGREDY'S IVORY

Lovely large buds and blooms of a delicate creamy white with splashes of yellow at the base. Very heavy-blooming Rose.

EVERBLOOMING Tea Roses

MRS. P. S. DU PONT

One of the best of the golden yellow Roses because it blooms so freely.

MRS. SAM McGREDY

Marvelous combination of scarlet, copper and orange, flushed with red on the outside. Very hardy and continuous blooming.

PICTURE

One of the highest rated and most popular of all pink Roses. A large, fully double, clear pink.

POINSETTIA

This sturdy, reliable variety produces many long, well-formed, fiery red blooms throughout the season.

RED RADIANCE

Planted everywhere because it always produces an abundance of fragrant, cerise-red Roses.

TALISMAN

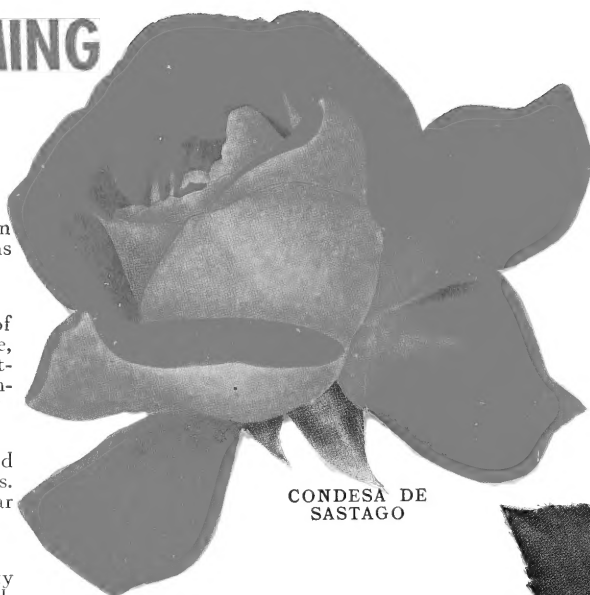

A vivid bicolor combination of orange, rose and yellow, Talisman is beautiful in the garden and wonderful for cutting.

THE DOCTOR

Here is a tremendous satiny pink Rose with long-pointed buds that unfold to enormous open blooms.

YELLOW CONDESA

This is an excellent buttercup-yellow form of the strong-growing and heavy-blooming Condesa.

CONDESA DE
SASTAGO

POINSETTIA

All-Star Rose Collection

Here are five favorites chosen especially for variety of color, beauty of bloom and top performance.

RED PINOCCHIO Pat. 812

A remarkable Floribunda which produces large, double, $3\frac{1}{2}$ -inch blooms in large, long-lasting clusters. Its color is a deep velvety red, with black shadings. A high 8.8 American Rose Society rating makes this a Rose for everyone's garden. \$1.60 each.

© DONALD PRIOR. Pat. 377
\$1.60 each

TREE ROSES

In Tree Roses we have the crowning achievement in Rose magnificence. These stately beauties are created by budding the desired varieties at the top of a straight Rose cane approximately 36 inches long. The bushy head that develops at the top of these canes usually produces larger and more numerous blooms than the standard type. They are, of course, ever-blooming in habit.

NAMED TREE ROSES

We have limited quantities of the following varieties. Order early.

- Capistrano.** Pat. 922. Pink.
- Crimson Glory.** Deep red.
- Forty-niner.** Pat. 792. Red and yellow.
- Frau Karl Druschki.** White.
- Fred Howard.** Pat. 1006. Yellow.
- Grande Duchesse Charlotte.** Pat. 774. Red.
- Helen Traubel.** Pat. 1028. Pink and apricot.
- Mme. Chiang Kai-shek.** Pat. 664. Yellow.
- Peace.** Pat. 591. Cream and pink.
- Pres. Herbert Hoover.** Pink and yellow.
- Sleigh Bells.** Pat. 1004. New white.
- Sutter's Gold.** Pat. 885. Gold.
- The Doctor.** Pink.

Prices same as other Tree Roses on this page.

DONALD PRIOR Pat. 377

Very choice, older variety of sparkling red with 12 petals to each bloom. A vigorous grower of about $3\frac{1}{2}$ feet and a continuous bloomer. \$1.60 each.

BETTY PRIOR Pat. 340

One of the heaviest blooming of all Roses, this magnificent single, shell-pink variety is wonderful for Rose hedging and for mass planting. \$1.60 each.

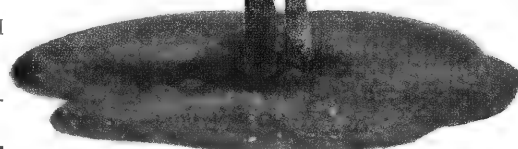

Tree Roses are used wherever some tall, colorful accent plant is required—and especially in Rose gardens. Since our supply is limited, we are offering them in the following colors:

WHITE	PINK	RED
YELLOW	BICOLOR	

\$6.00 each; 2 for \$11.50

(Please add 50c per plant to cover shipping and handling)

Established plants in pots,
\$7.50 each; 2 for \$14.25.

© BETTY PRIOR. Pat. 340. \$1.60 each

BERRIES OF THE JAPANESE YEW

ILGENFRITZ YEWS

JAPANESE YEWS

The Taxus or Yew family provides the finest evergreens for landscaping the modern home. They are indeed the aristocrats of evergreens, for they are the darkest green and unquestionably the most beautiful. The Yews retain their wonderful rich coloring throughout the year, and no other evergreen will so well withstand attacks from disease and insect pests. Their fleshy red berries are very showy in fall. Because of their slow growth, they can be kept at the desired height indefinitely by shearing. They thrive in a wide variety of soils in sun or partial shade.

While it is true that the initial investment required for Japanese Yews may be greater, yet the dividends they will pay in many years of permanent beauty as well as the value they will add to your property in dollars and cents, will be more than worth the difference. Ilgenfritz Yews will improve the beauty of your home increasingly as the years go by.

UPRIGHT JAPANESE YEW (*T. cuspidata capitata*)

A beautiful upright pyramidal form, this aristocrat retains its wonderful full, dark green foliage throughout the year. In fall the rich foliage is enhanced by showy red berries. Regular trimming tends to thicken and improve this fine quality pyramidal specimen.

	Each
2 to 2½ ft., B&B.....	\$17 50
2½ to 3 ft., B&B.....	22 50
3 to 3½ ft., B&B.....	29 50

UPRIGHT JAPANESE YEW

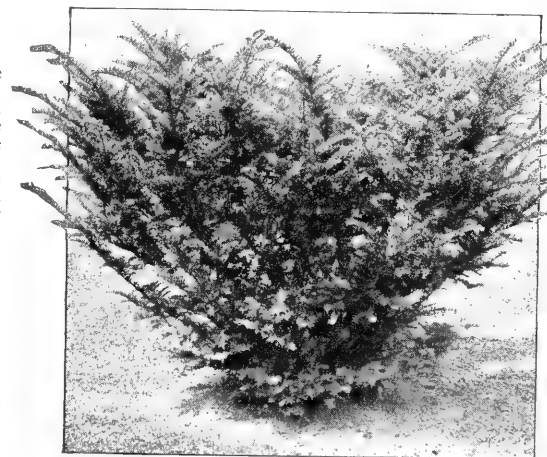

IMPORTANT NOTE TO OUR MAIL-ORDER CUSTOMERS

Because of the expense of shipping and the difficulty of crating heavy balled and burlapped (B&B) evergreens, we request that you visit our nearest branch for these items.

BROWNS GLOBE YEW (*T. cuspidata browni*)

This dense, full evergreen is just the plant for using at entrances and doorways, or wherever a rounded evergreen is required. Its exceptionally rich deep green foliage makes it outstanding. It takes trimming perfectly, which means that it can always be kept dwarf and rounded. This is undoubtedly the finest globe evergreen.

Each 12 to 15 in., B&B.....\$7 75

JAPANESE SPREADING YEW

SPREADING JAPANESE YEW (*Taxus cuspidata*)

The ideal spreading evergreen for the modern home. It cannot be equalled for under picture windows, along porches, or for planting in front of taller evergreens. By trimming new growth back regularly, you will not only keep these beauties down to the desired size indefinitely, but you will have rich, full evergreens that will be the envy of the neighborhood. They grow well in sun or shade.

	Each
12 to 15-in. spread, B&B.....	\$6 50
15 to 18-in. spread, B&B.....	8 75
1½ to 2-ft. spread, B&B.....	13 50
Economy grade, three times transplanted, 7 to 10 in.....	.98c each; 3 for \$2.85

(This grade can be mailed)

HATFIELD YEW (*T. media hatfieldi*)

A very full, upright variety of medium height that is valuable for foundation planting and hedges.

	Each
1½ to 2 ft., B&B.....	\$10 50
2 to 2½ ft., B&B.....	15 50
2½ to 3 ft., B&B.....	20 50

HICKS YEW (*T. media hicksi*)

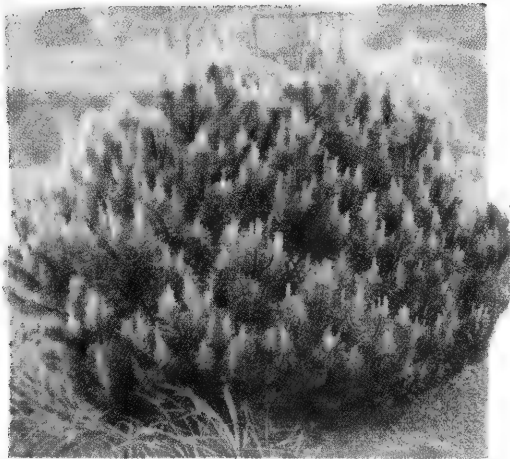

Unquestionably one of the finest upright evergreens. The magnificent rich dark green foliage retains its beauty through the year. In habit, it grows as a dense columnar evergreen of medium height. In fall it produces quantities of attractive red berries. For those who want a really choice upright evergreen of columnar habit, here it is—the best. Used for both foundation work and hedging.

	Each
2 to 2½ ft., B&B.....	\$15 50
2½ to 3 ft., B&B.....	20 50
3 to 3½ ft., B&B.....	26 00
3½ to 4 ft., B&B.....	32 00

HICKS YEW

**PLANT ILGENFRITZ YEWS, THE
KING OF ALL EVERGREENS**

MUGHO PINE

MUGHO PINE

(*Pinus mugo mughus*)

Very decorative, dwarf spreading form of Pine with dense branches close to the ground. Because of that, it is often used in pairs in foundation planting or in conjunction with other evergreens. It is a handsome dark evergreen that sends out short candles each year. If these are kept trimmed, the shrub will serve as a beautiful thick specimen for years.

Each
12 to 15 in., B&B.....\$6 50

MOERHEIM BLUE SPRUCE

(*Picea pungens moerheimi*)

For real landscape color, here is the king of all large specimen evergreens. It is the bluest of all blue Spruce, and because it is a grafted tree every one is uniformly blue. Although not perfectly symmetrical in its younger stages, it develops into the finest accent tree imaginable.

Each
2½ to 3 ft., B&B.....\$27 50
3 to 3½ ft., B&B..... 33 50
3½ to 4 ft., B&B..... 39 50
4 to 4½ ft., B&B..... 45 00
4½ to 5 ft., B&B..... 52 50

MOERHEIM BLUE SPRUCE

ARBORVITAE OR THUJA

AMERICAN PYRAMIDAL ARBORVITAE (*Thuja occidentalis pyramidalis*). A very beautiful columnar evergreen of rapid growth and fine green color, which takes shearing well. Widely used in corner plantings, for framing doorways, and wonderful as a tall screening and hedge plant.

Each	Each
3 to 4 ft., B&B...\$9 50	5 to 6 ft., B&B...\$17 50
4 to 5 ft., B&B...12 00	6 to 7 ft., B&B... 19 50

Economy grade, three times transplanted,
9 to 12 in.....98c each; 3 for \$2.85

(This grade can be mailed)

BERCKMANN'S GOLDEN ARBORVITAE (*T. orientalis aurea nana*). A dazzling, dwarf golden yellow accent shrub. Makes a striking contrast in foundation and evergreen plantings.

Each	Each
12 to 15 in., B&B...\$3 95	1½ to 2 ft., B&B...\$5 95
15 to 18 in., B&B... 4 95	

WOODWARD GLOBE ARBORVITAE (*T. occidentalis woodwardi*). An economical, perfectly globe-shaped evergreen with dense, compact, light green foliage. A dwarf plant used for low evergreen hedging, at entrances and doorways and as a marker in formal plantings.

Each
15 to 18 in., B&B.....\$6 25
Economy grade, three times transplanted,
6 to 9 in.....98c each; 3 for \$2.85

(This grade can be mailed)

AMERICAN PYRAMIDAL ARBORVITAE

PFITZER JUNIPER

JUNIPER

PFITZER JUNIPER (*J. chinensis pfitzeriana*). A marvelous bluish green specimen for use in foundation and border planting—in fact, for any spot where an attractive low spreading evergreen is needed. It is a particularly graceful shrub of tremendous vigor that will grow almost anywhere. Shearing will not only keep it full but will confine it to the desired height and size. Our plants are particularly full and are available in a wide range of sizes.

Each
12 to 15 in., B&B.....\$6 00
15 to 18 in., B&B..... 7 50
1½ to 2 ft., B&B..... 9 95
2 to 2½ ft., B&B.....12 50
2½ to 3 ft., B&B.....15 50
3 to 3½ ft., B&B.....18 75
3½ to 4 ft., B&B.....24 50

SPINY GREEK JUNIPER (*J. excelsa stricta*).

The Greek Juniper is a dwarf, conical evergreen. Its dense foliage is composed of masses of luminous blue-green leaves. This is a very popular specimen shrub with considerable character.

Each
12 to 15 in., B&B.....\$3 75
15 to 18 in., B&B..... 5 25
1½ to 2 ft., B&B..... 6 95
2 to 2½ ft., B&B..... 8 75

CANADIAN HEMLOCK

(*Tsuga canadensis*)

A fine graceful upright pyramidal evergreen with magnificent feathery foliage that is wonderful for shady spots where other evergreens might fail. If kept trimmed, it is very dense and can be used in foundation planting. Otherwise, if allowed to grow, it will become an attractive lawn specimen. It is also used in evergreen hedging. Although it thrives in shady areas, it can also be planted in sunny spots. To be at its best, it should be kept fairly moist. We have a fine block of these trees for spring planting.

Each
2 to 3 ft., B&B.....\$13 50
3 to 4 ft., B&B..... 18 75
4 to 5 ft., B&B..... 27 50

CANADIAN HEMLOCK

ECONOMY GRADE EVERGREENS

For those who prefer to start their plants small, for those who wish to plant evergreen hedges or windbreaks, for those who wish to save money—here is a real opportunity.

These are all well-rooted plants and much fuller than their size indicates. They have been transplanted THREE times.

Abies douglasii. Douglas Fir. 9 to 12 in.
Picea alba. White Spruce. 9 to 12 in.
Picea excelsa. Norway Spruce. 9 to 12 in.
Picea glauca densata. Black Hills Spruce. 9 to 12 in.
Pinus nigra. Austrian Pine. 12 to 15 in.
Thuja occidentalis pyramidalis. American Pyramidal Arborvitae. 9 to 12 in.
Thuja occidentalis woodwardi. Woodward Globe Arborvitae. 6 to 9 in.
Thuja orientalis. Oriental Pyramidal Arborvitae. 12 to 15 in.
Taxus cuspidata. Spreading Japanese Yew. 7 to 10 in.

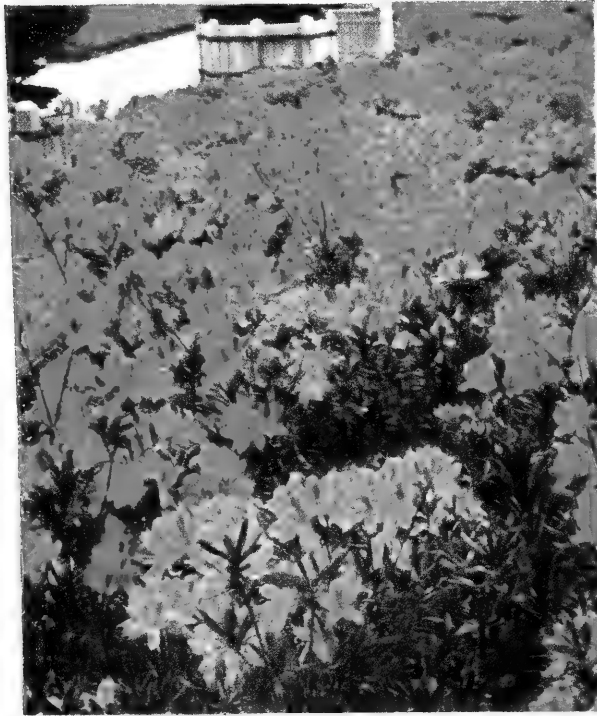

The last four varieties are dwarfish landscape-type plants ideal for foundation planting. The others are tall-growing specimen trees.

**98c each; 3 for \$2.85; 6 for \$5.50;
12 for \$10.75**

(Michigan orders please add 3% sales tax)

All orders amounting to \$5.00 or over are sent prepaid. For others under \$5.00, please add 35c for postage and handling.

ILGENFRITZ *Flowering Shrubs*

AZALEA MOLLIS

In northern areas, they often freeze back to the ground and should be cut back each spring. Their long attractive spikes of bloom make very choice cut flowers. Grows 5 to 6 feet high.

Charming. A favorite sweet-scented pink variety.

Dubonnet. Numerous close-set spikes of wine-red.

Hartwegi. A compact, hardy form with very heavy, dark green foliage. The color is bright lavender, with each floret having an orange eye. Excellent for cutting.

Ile de France. Large flowers of rich reddish purple, in long panicles.

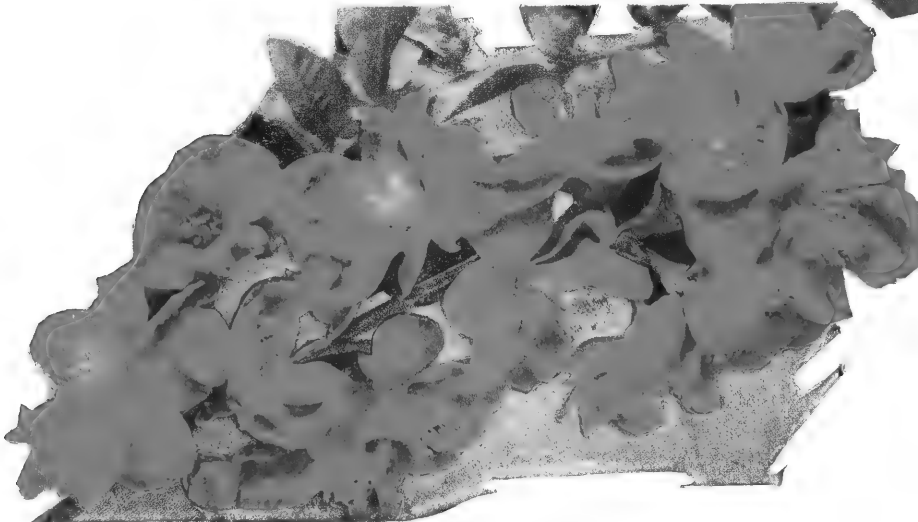

Royal Red. Pat. 556. A newer variety that produces a profusion of large, 2-foot sprays of dark royal purple from July until frost. The foliage is deep leathery green.

All Buddleias \$1.75 each; 3 for \$4.80
One each of the five varieties for \$7.50

CHAENOMELES (Flowering Quince)

C. japonica (Japanese Flowering Quince). The large, bright red flowers of the Japanese Quince produce one of the most attractive spring pictures. They are borne in great profusion along the branches before the leaves unfold. It is a dwarfish shrub suitable for foundation planting. Our plants are waxed or plantected to prevent drying out of the canes. 15 to 18 in., \$1.35 each; 3 or more, \$1.20 each. 1½ to 2 ft., \$1.60 each; 3 or more, \$1.45 each.

C. lagenaria (Red Upright Flowering Quince). This is a taller-growing form of the popular Chaenomeles group, which may reach 6 or 7 feet high if desired. Its red flowers appear in tremendous quantities all along the branches. Fine for specimen planting or for hedging and shrub border use. 1½ to 2 ft., \$1.70 each; 3 or more, \$1.50 each. 2 to 3 ft., \$1.90 each; 3 or more, \$1.75 each. Hedge grade, 6 to 12 in., 10 for \$3.95.

RED FLOWERING QUINCE

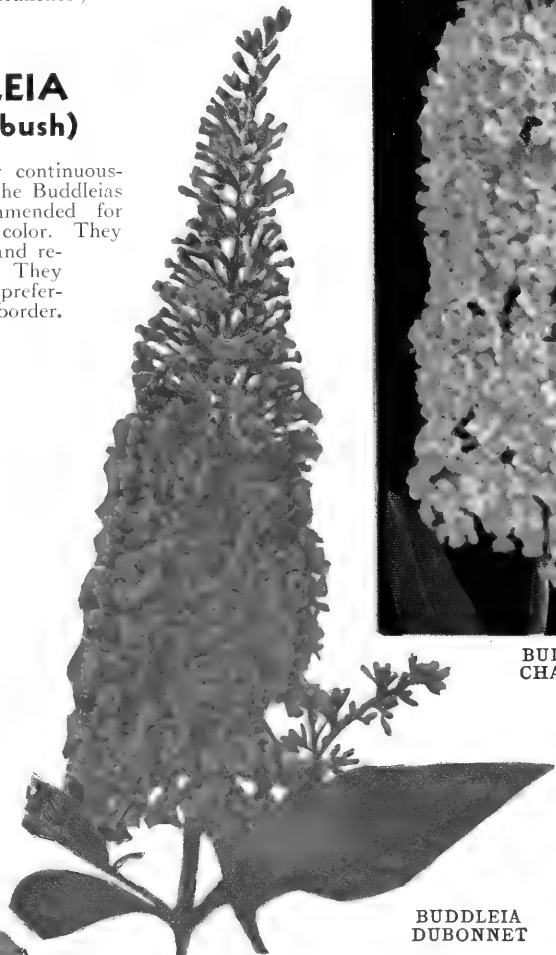

Fast Growing
Colorful
Economical

AZALEA MOLLIS

For a blaze of spring color, this showy plant is exceptionally good. Low growing and bushy, these brilliant shrubs become covered with clusters of sparkling flowers. This is a hardy outdoor shrub under Michigan conditions, which prefers an acid soil. Plenty of acid peat moss should be worked into the soil around each plant. Will grow in full sun or part shade and can be used beautifully wherever a low-growing accent plant is wanted. Available in Red, Orange, Rose and Yellow. 10 to 12-in. grade in peat balls, \$2.25 each; 3 for \$6.00. (Larger plants available at all our branches.)

BUDDLEIA (Butterflybush)

One of the few continuous-blooming shrubs, the Buddleias are highly recommended for summer and fall color. They are easy to grow and require little care. They should be planted preferably in a sunny border.

BUDDLEIA
CHARMING

BUDDLEIA
DUBONNET

Special! Backyard Landscape Offer

Nine beautiful flowering shrubs—think of it, enough to plant a border or screen 25 to 35 feet long. All are attractive, tall-growing beauties that will add lots of color to your yard. Perhaps you have an undesirable view to hide, a vegetable garden or building to screen. There are a dozen ways these shrubs can be used.

And note the sizes. These are not seedlings but heavy, well-branched, 3 to 4-foot landscape specimens. For best effect these could be planted in groups of three.

3 DEUTZIA, PRIDE OF ROCHESTER
3 VIRGINAL MOCKORANGE
3 PINK TATARIAN HONEYSUCKLE
ALL 3 to 4 ft. HIGH

Purchased singly, they would cost considerably more.

Our Special Price - - \$16.25

Garden path flanked by *Deutzia gracilis*, with Lilacs in the background

CORNUS (Dogwood)

C. alba sibirica (Siberian Dogwood). A very hardy, upright-growing form that produces creamy white blooms in May, followed by bluish white berries. Leaves turn red in autumn, while the coral-red branches in winter bring out an attractive tracery. Grows 8 to 10 feet tall.

C. sanguinea (Red-stem Dogwood). Distinguished by its dark red branches, this variety produces greenish white flowers in May, followed by black fruit. Its leaves turn brilliant dark red in the fall.

C. stolonifera flaviramea (Yellow-twig Dogwood). Remarkable for its golden yellow branches. It has a spreading habit of growth, with white flowers appearing in May. These are followed by white berries. When planted with the red-branched varieties, the color contrast is very effective.

All above Dogwood

1½ to 2 ft., \$1.50 each; 3 or more, \$1.35 each

2 to 3 ft., \$1.75 each; 3 or more, \$1.60 each

DEUTZIA

D. gracilis (Slender Deutzia). One of the best of the dwarf shrubs, this dainty and beautiful variety produces myriads of white flowers on slender arching branches in late spring. Because of its dwarf habit, it can be used very well in foundation planting, even for the modern ranch home. 15 to 18 in., \$1.95 each; 3 or more, \$1.75 each. 18 to 24 in., \$2.25 each; 3 or more, \$2.00 each.

D. lemoinei. Very hardy, low, compact variety that grows slightly higher than the above. The snow-white flowers in May will make a fine display either as a foundation shrub or in the border. 1½ to 2 ft., \$2.25 each; 3 or more, \$2.00 each.

D. Pride of Rochester. A wide-spreading shrub of amazingly rapid growth, this popular variety bears showy clusters of large, pinkish white, bell-shaped flowers. Beautiful as a tall specimen shrub and just the thing for shrubbery borders and screening purposes. We have plants available in very large sizes for quick screens. Particularly bushy, heavy plants.

2 to 3 ft., \$1.75 each; 3 at \$1.60 each; 10 at \$1.45 each.

3 to 4 ft., \$2.25 each; 3 at \$2.00 each; 10 at \$1.75 each.

4 to 5 ft., \$2.75 each; 3 at \$2.50 each; 10 at \$2.25 each.

5 to 6 ft., \$3.50 each; 3 at \$3.15 each; 10 at \$2.85 each.

CARYOPTERIS, Blue Mist

Beautiful dwarf flowering shrub that makes a real contribution to the garden by producing numerous clusters of fringed, powder-blue flowers during the summer and fall. Growing only 18 to 24 inches high, this charming plant is magnificent in perennial borders and for facing higher shrubs. Sometimes called Blue Spirea. No. 1 plants, \$1.65 each; 3 for \$4.50.

COTONEASTER

C. divaricata (Spreading Cotoneaster). Much sought after as a choice landscape item, this wonderful low spreading shrub produces showy pink blooms in spring, which are followed by a glorious display of red berries in fall and winter. Don't miss this one. 8 to 12 in., potted or in peat moss balls, \$1.75 each; 3 or more, \$1.60 each.

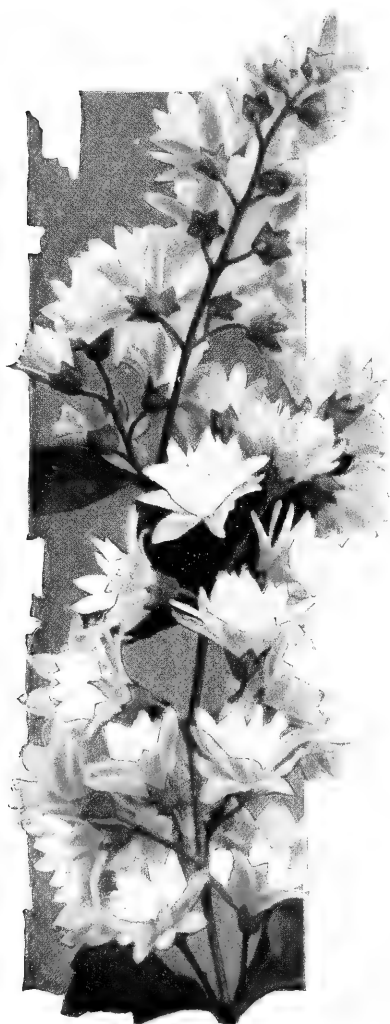

C. racemiflora soongarica (Sungari Rockspray). A rare but particularly beautiful variety of upright Cotoneaster that will stand out in any shrub border. In June it produces small white flowers that are followed by a profusion of showy pink berries in fall. Its bluish gray foliage is an added distinctive feature. Hardy in Michigan and grows 6 to 8 feet tall. 8 to 12 in., potted or in peat moss balls, \$1.75 each; 3 or more, \$1.60 each.

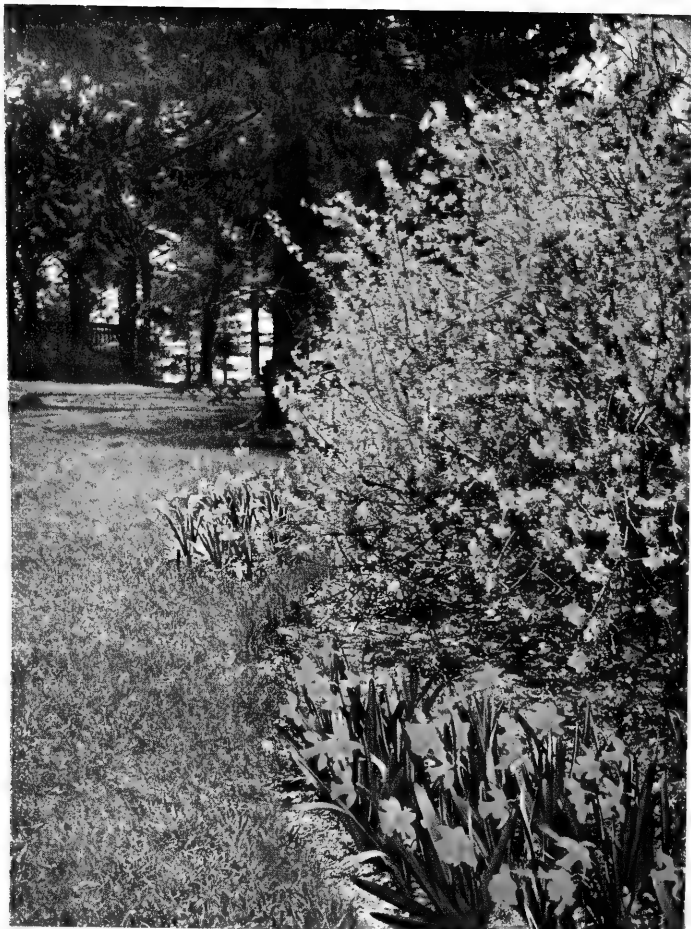

SIBERIAN RED-BRANCHED DOGWOOD

CORYLUS MAXIMA PURPUREA (Purple-Leaved Filbert)

A rare shrub of great beauty, particularly where foliage contrast is sought. To be at its best, this tall shrub or small tree should be planted in full sun where its long shiny leaves will grow to the deepest purple. This brilliant coloring remains all summer. Here is a wonderful opportunity to introduce this gorgeous shrub into your area. 15 to 18 in., \$2.50 each; 3 or more, \$2.25 each. 18 to 24 in., \$3.25 each; 3 or more, \$3.00 each.

DEUTZIA
Pride of Rochester

FORSYTHIA intermedia spectabilis

ILGENFRITZ Flowering Shrubs

FORSYTHIA INTERMEDIA SPECTABILIS

Its multitude of glowing rich yellow flowers are the crowning glory of the spring season. A tall, bushy shrub that is easy to grow anywhere. It will flower better in a sunny location. 1½ to 2 ft., \$1.60 each; 3 or more, \$1.45 each. 2 to 3 ft., \$1.95 each; 3 or more, \$1.75 each.

HYDRANGEA

Snowhill (*H. arborescens*). Very attractive for both its large clusters of white flowers and its large green leaves. Since it does very well in shade, it is often used in spots where nothing else will grow. 2 to 3 ft., \$1.75 each; 3 or more, \$1.60 each.

Peegee (*H. paniculata grandiflora*). This very popular Hydrangea produces beautiful large panicles of white flowers that gradually change to shades of pink and bronze. These remain on the plant for a long time. A fast-growing shrub for continuous late summer bloom. It can be used as a specimen or in groups, in sun or partial shade. 15 to 18 in., \$1.25 each; 3 or more, \$1.15 each. 2 to 3 ft., \$1.75 each; 3 or more, \$1.60 each. 3 to 4 ft., \$2.25 each; 3 or more, \$2.00 each.

Peegee Tree Hydrangea. The foliage and blooms are the same as the popular Peegee above, but it grows in tree form with heads 2 to 4 feet from the ground. As such, it makes a very striking specimen. 3 to 4 ft., B&B, \$5.50 each.

HYDRANGEA, Peegee

LONICERA (Honeysuckle)

Fragrant flowers, ornamental fruits, fast bushy growth and ease of culture make this group of shrubs particularly beautiful for shrubbery plantings and screening purposes.

L. morrowi (Morrow Honeysuckle). Valued especially for its dense, bushy growth from the ground up. A shrub of medium height that is often used for planting on banks and similar places because it will often grow twice as wide as it does high. The white flowers of late May change to yellow. These are followed by showy red berries.

L. tatarica alba (White Tatarian Honeysuckle). A fast-growing, tall, upright shrub that is ideal for mixed shrubbery planting, hedge and screening purposes. Flowers are pure white, and these are followed by red berries that hang on till late fall. It will thrive in most soils and will tolerate some shade.

Above two varieties

1½ to 2 ft., \$1.40 each; 2 to 3 ft., \$1.75 each; 3 to 4 ft., \$2.25 each

L. tatarica rosea (Pink Tatarian Honeysuckle). Probably the most popular of all bush Honeysuckles, this is a pink-flowering variety with the same growing habits as *L. tatarica alba* described in first column. It is used very widely, in shrubbery borders and for screening purposes.

L. tatarica, wheeling (Wheeling Red Honeysuckle). An improved, larger flowering form of the popular Red Tatarian Honeysuckle. Otherwise, it has the same attractive berries and growth habits as the other Tatarian varieties.

Above two varieties

1½ to 2 ft., \$1.40 each; 10 at \$1.25 each
2 to 3 ft., \$1.75 each; 10 at \$1.50 each
3 to 4 ft., \$2.25 each; 10 at \$1.95 each

NOTE: The above are all beautiful, bushy, landscape-grade plants. Here is a fine opportunity to secure quality plants that will make a good showing this year—and at a quantity rate.

PINK TATARIAN HONEYSUCKLE

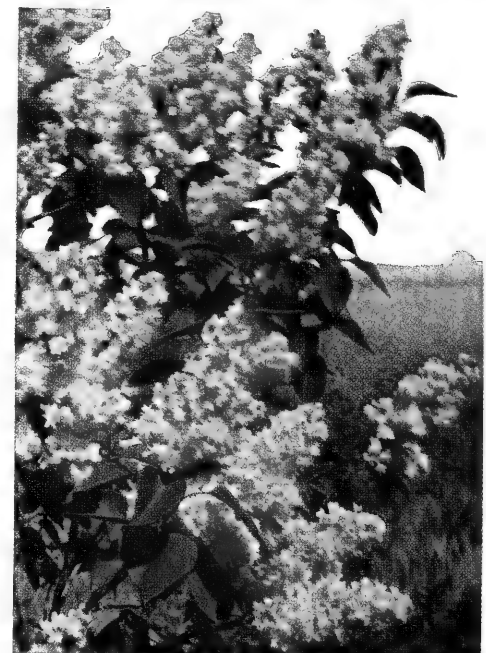

LILAC

Common Purple.

The best known of all Lilacs, this is the old favorite, highly scented one with masses of bluish purple

blossoms. 1½ to 2 ft., \$1.40 each; 3 or more, \$1.25 each. 2 to 3 ft., \$1.75 each; 3 or more, \$1.60 each.

French Lilacs. Tremendous clusters of large individual florets in a wide variety of colors. Available in Pink and Rose shades; also Blue and Purple shades. (Please specify color.) 15 to 18 in., \$1.75 each; 3 or more, \$1.50 each. 18 to 24 in., \$2.50 each; 3 or more, \$2.25 each.

FRENCH LILAC, Blue

KERRIA (Double Globeflower)

KERRIA JAPONICA FL. PL. (Double Globeflower)

Very striking in both summer and winter. In summer its attractive green foliage and large, ball-shaped flowers—about 1½ inches in diameter—make this a fine specimen. In winter the slender branches retain their showy green color. Though the main period of bloom comes in May, this shrub usually continues to flower throughout the summer. It is a thick grower that reaches 4 to 6 feet in height and can be used as a specimen or in the foreground of shrub borders. 1½ to 2 ft., \$2.25 each; 3 or more, \$2.00 each.

KOLKWITZIA AMABILIS (Beautybush)

An appropriately named shrub from Korea. Masses of blush-pink, bell-shaped flowers really make this a marvelous picture in June. A superb specimen shrub that grows 6 to 7 feet high. 1½ to 2 ft., \$1.75 each; 3 or more, \$1.60 each. 2 to 3 ft., \$2.25 each; 3 or more, \$2.00 each. 3 to 4 ft., \$2.75 each; 3 or more, \$2.50 each.

KOLKWITZIA (Beautybush)

SYMPHORICARPOS

S. albus (Snowberry). Large white berries, especially ornamental in fall and early winter. A shrub of medium height that will grow well in shaded spots, in moist areas or in the open sun. 2 to 3 ft., \$1.50 each; 3 or more, \$1.35 each. 3 to 4 ft., \$1.95 each; 3 or more, \$1.75 each.

S. chenaulti (Chenault Coralberry). Strikingly different, with fine, lacy foliage and very showy clusters of red berries in fall. Dwarf enough to use as a foundation plant and as a low foreground shrub in the border. Will grow well in any normal, well-drained soil in sun or part shade. 2 to 3 ft., \$1.50 each; 3 or more, \$1.35 each. 3 to 4 ft., \$1.95 each; 3 or more, \$1.75 each.

S. orbiculatus (Indian Currant). Another dwarf, red-berried form, useful for planting banks because of its tendency to spread from suckers. Clusters of berries all along the branches in fall and winter. Will grow almost anywhere and can be used in mass effect or in the border. 1½ to 2 ft., \$1.25 each; 3 or more, \$1.10 each. 2 to 3 ft., \$1.50 each; 3 or more, \$1.35 each.

CORALBERRY

PHILADELPHUS (Mockorange)

P. coronarius (Sweet Mockorange). Large, creamy white, most fragrant flowers cover the plant in June. A tall specimen shrub or can be used for screening and the shrub border. 2 to 3 ft., \$1.75 each; 3 or more, \$1.60 each. 3 to 4 ft., \$2.25 each; 3 or more, \$2.00 each. 4 to 5 ft., \$3.00 each; 3 or more, \$2.75 each.

P. grandiflorus (Giant-flowering Mockorange). Large, single white flowers in mid-June. Good for screening because the branches usually sweep to the ground on all sides, making a giant 9-foot mound. Well-branched, sturdy landscape-size plants. 2 to 3 ft., \$1.75 each; 10 at \$1.25 each. 3 to 4 ft., \$2.25 each; 10 at \$1.75 each. 4 to 5 ft., \$3.00 each; 10 at \$2.25 each.

P. virginialis (Virginal Mockorange). Large, semi-double, fragrant blooms, fine for cutting. Useful in the tall shrubbery border and as a background shrub. 15 to 18 in., 85c each; 10 at 70c each. 1½ to 2 ft., \$1.25 each; 10 at 95c each. 2 to 3 ft., \$1.75 each; 10 at \$1.50 each. 3 to 4 ft., \$2.00 each; 10 at \$1.75 each.

VIRGINAL MOCKORANGE

SPIRAEA

S. bumalda froebeli (Froebel Pink Spirea). Bears large, flat heads of deep pink flowers in June and July. The foliage, usually tinged purple in spring, develops beautiful fall coloring. The shrub is dwarfish and spreading in habit, and excellent for foundation planting. 1½ to 2 ft., \$1.50 each; 3 or more, \$1.35 each. 2 to 3 ft., \$1.75 each; 3 or more, \$1.60 each.

S. vanhouttei (Vanhoutte Spirea). The best known of all shrubs. White flowers along every arching branch in early spring. Of medium height, it thrives everywhere and is used both as a specimen and for hedging. 1½ to 2 ft., 75c each; 10 at 60c each. 2 to 3 ft., \$1.25 each; 10 at \$1.10 each. 3 to 4 ft., \$1.75 each; 10 at \$1.50 each.

ILGENFRITZ Ranch - House Special

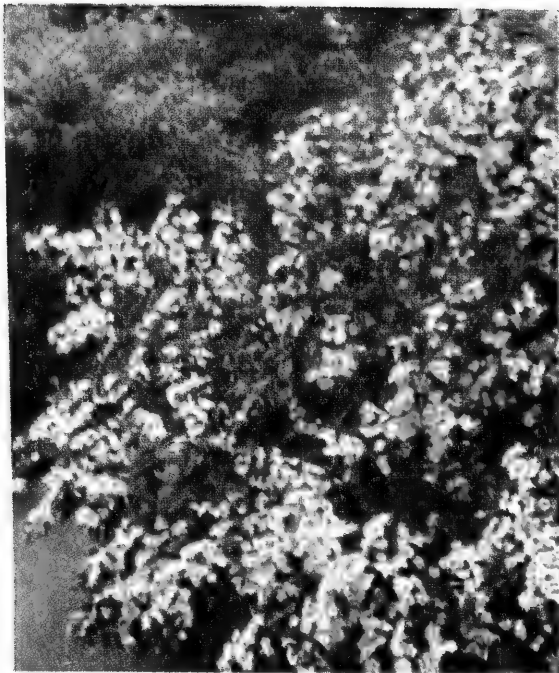

Because of their dense, compact growth, these fine shrubs will be ideal for foundation planting, or they will be just as effective as foreground plants in the shrub border.

- 2 *Deutzia gracilis*. 15 to 18 in. (Page 13)

\$9.50**

SPIRAEA bumalda froebeli

WEIGELA rosea

WEIGELA

W. Eva Rathke. Very popular dwarf variety that produces a profusion of dark crimson flowers in June and intermittently throughout the summer. 1½ to 2 ft., \$1.75 each; 3 or more, \$1.60 each. 2 to 3 ft., \$2.25 each; 3 or more, \$2.00 each.

W. hendersoni (Henderson Weigela). One of the hardiest of the Weigela family. It is a fine medium-height shrub producing quantities of light crimson flowers in May and June. 1½ to 2 ft., \$1.75 each; 3 or more, \$1.60 each. 2 to 3 ft., \$2.25 each; 3 or more, \$2.00 each.

W. rosea (Pink Weigela). A splendid pink variety with handsome dark green foliage and gracefully drooping branches. Excellent for foundation planting and shrub borders. It is somewhat taller than the other varieties. 2 to 3 ft., \$1.75 each; 3 or more, \$1.60 each. 3 to 4 ft., \$2.25 each; 3 or more, \$2.00 each.

HYPERICUM

H. frondosum (Golden St. Johnswort). A very attractive dwarf shrub growing only 3 to 4 feet tall, which has unusually good foliage. In late summer when color is scarce, it produces large, brilliant yellow flowers. It blooms better in partial shade and is very useful as a low foundation shrub and for planting in front of taller shrubs. 2 to 3 ft., \$2.00 each; 3 or more, \$1.75 each.

H. patulum henryi, Golden Glory. NEW. A delightful new shrub that is superior to the species in every way. It produces masses of dazzling single yellow flowers about 2½ inches in diameter. The leaves are quite large for a dwarf shrub. In warmer areas these are partly evergreen. Grows about 3 feet high. 12 to 15 in., \$2.00 each; 3 or more, \$1.75 each.

HYPERICUM, Golden Glory

ILGENFRITZ

Flowering Shrubs

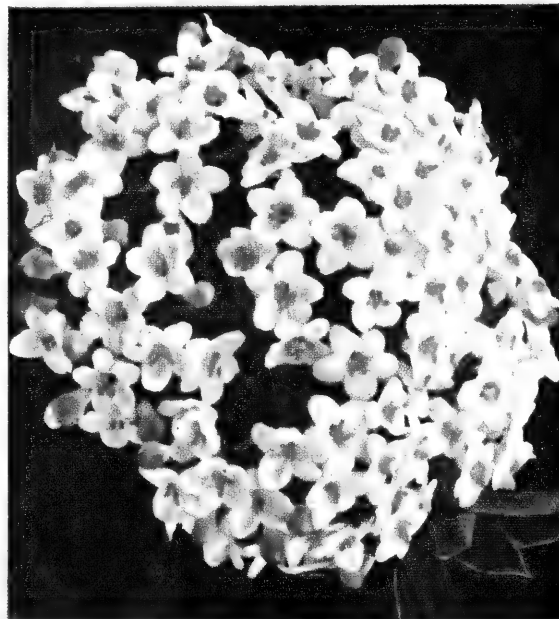

VIBURNUM

V. burkwoodi (Burkwood Viburnum). A dwarf variety with glossy green foliage that is partly evergreen. It bears magnificent clusters—3 to 4 inches across—of very fragrant, pinkish white flowers. Wonderful for foundation planting. 2 to 3 ft., B&B, \$9.00 each. (Sorry we cannot send these by parcel post or express, but they can be purchased at any of our branches.)

V. dentatum (Arrowwood Viburnum). Rich shiny green leaves, which turn to blazing red and purple in autumn. Large white flower clusters in spring and blue berries in fall. A fine shrub for shady areas, for specimen or mass planting. 15 to 18 in., \$1.25 each; 3 or more, \$1.10 each. 1½ to 2 ft., \$1.75 each; 3 or more, \$1.60 each. 2 to 3 ft., \$2.25 each; 3 or more, \$2.00 each. 3 to 4 ft., \$2.75 each; 3 or more, \$2.50 each.

VIBURNUM opulus roseum (Snowball)

BURKWOOD VIBURNUM

✓ **V. opulus** (European Cranberrybush). Very large clusters of white flowers and red berries. Vigorous; tall. 2 to 3 ft., \$2.25 each; 3 or more, \$2.00 each. 3 to 4 ft., \$2.75 each; 3 or more, \$2.50 each.

V. opulus roseum (Snowball). Large round clusters of white flowers in May and June. Medium height; sun or shade. 1½ to 2 ft., \$1.95 each; 3 or more, \$1.75 each. 2 to 3 ft., \$2.50 each; 3 or more, \$2.25 each.

✓ **V. trilobum** (American Cranberrybush). Hardy anywhere. Large flat white heads in May or June and edible red berries. Foliage turns scarlet in fall. 15 to 18 in., \$1.75 each; 3 or more, \$1.60 each. 18 to 24 in., \$2.25 each; 3 or more, \$2.00 each.

TAMARIX AFRICANA (African Tamarix)

Very graceful, tall, upright shrub with dainty, feathery, unusually bright green foliage resembling that of junipers in summer. All the branches become covered with clouds of small pink flowers. Attractive as a specimen or in background and group plantings. 2 to 3 ft., \$1.75 each; 3 or more, \$1.60 each.

TANN AND GARDEN PAINTS

POMO-GREEN
FOR ROSES

NEW ROSE SHINE GARDEN-ORANGE, PINK

Put this in your garden
and watch the roses bloom
and shine like the sun. It
will keep the roses green
and bright all summer long.
It will also keep the roses
from getting sick and
dying.

MADE IN U.S.A.

NEW POMO-GREEN

Designed for roses as well as many other ornamental plants, Pomo-Green is a combined insecticide and fungicide, recommended for double control of such diseases as black spot on roses, as well as for chewing and sucking insects that attack most plants. 1-lb. sifter canister \$1.00.

FOR BETTER FRUITS AND VEGETABLES

DU PONT FRUIT TREE SPRAY

By following a simple home spray schedule, the home gardener can produce really good fruit with one combined insect-disease product. Easy to use; simply follow directions on the package. Contains methoxychlor, ferimate and sulphur. 1-lb. can \$1.15; 3-lb. bag \$2.75, not prepaid.

ROSE FOOD
8-10-4

**50% organic matter
completely mineralized
no filler**

FOR HEALTHIER ROSES
F & B ROSE FOOD

For discriminating rose fanciers. Specially compounded to contain 50% organic matter. Completely mineralized 100% plant-food carrier with no fillers. It encourages brilliant colors, vigorous foliage and resistance to disease. 5-lb. bag 85c; 10-lb. bag \$1.40, not prepaid.

DU PONT FERMATE

By far the most useful fungicide ever made available to flower gardeners. It resists weathering and is especially effective for control of black spot and rust on roses, leaf spot and rust of chrysanthemums, apple scab, grape black rot and many other diseases. 8-oz. can 80c.

DU PONT VEGETABLE GARDEN DUST

A one-product spray for control of both diseases and insects. It is effective against most diseases and insects that commonly attack garden vegetables. Safe to use even on tender plants such as cucumbers. It will also control early and late blights of tomato and potato. 8-oz. refillable dust gun 79c; 1-lb. can \$1.15.

ILGENFRITZ *Garden Shop*

All our branches are your headquarters for finer garden accessories

KOLO FRUIT TREE DUST or SPRAY

Formulated as a complete insect and disease control after the dormant stage, this superior insecticide and sulphur fungicide can be safely used as a dust or spray to control such insects as codling moth, curculio, tent caterpillar, rose chafer, Japanese beetle, apple maggot, and diseases such as apple scab, powdery mildew, peach scab and brown rot. 1-lb. bag 60c; 3-lb. bag \$1.50, not prepaid.

NIGARA C. O. C. S. COPODUST

This is an excellent copper fungicide designed especially to control the early and late blights of tomatoes, potatoes and celery, as well as other fungous diseases of vegetables and ornamentals. 1-lb. canister 45c.

SPRAYS FOR GENERAL USE

NIAGARA 5% DDT DUST

This is designed for the control of Japanese beetles, European corn borer, corn ear worm, leafhoppers, cabbage worm, flea beetle and thrips on glads and onions. 1-lb. canister duster 45c.

DU PONT 50% WETTABLE DDT POWDER

Highly effective wettable form of DDT for water spray application. It may be used for control of many insects affecting garden and ornamental plants. It is also used widely as a residual insecticide in yards and around buildings to control mosquitoes and flies. 1-lb. can \$1.00.

BLACK LEAF 40

This popular old spray is designed for killing aphids, most species of thrips, leafhoppers, etc., on fruits, vegetables, flowers, roses and shrubs. It can also be used for delousing chickens and protecting shrubs from dogs. 1-oz. bottle 36c.

BLACK LEAF AEROSOL INSECT KILLER

Just press the button to kill flies, mosquitoes, ants, roaches and other household pests. 12-oz. handy dispenser \$1.59.

BORDEAUX MIXTURE

All ready mixed powder for the control of fungous diseases such as mildew, rust, early and late blight on fruit and shade trees, vegetables and flowers. 1-lb. canister 50c; 4-lb. bag \$1.49, not prepaid.

NIAGARA 5% CHLORDANE DUST OR SPRAY

This is a spray or dust designed for use against ground insects such as cutworms, wireworms, ants, roaches, etc. It can also be used to kill earwigs, cabbage maggots, Colorado potato beetle, and blister beetles that attack potatoes, flowering plants, birch and elm trees. 1-lb. canister duster 55c.

DU PONT FLORAL DUST

A particularly useful dust for controlling many plant insects and diseases. It is safe to use even on the most tender of blooms but yet powerful enough to control severe attacks. It is a simple, easy-to-use combination control chemical containing methoxychlor, fer-mate, sulphur and rotenone. 8-oz. dust gun 79c; 1-lb. canister \$1.15.

SCALECIDE

THE COMPLETE DORMANT SPRAY

This is a miscible dormant oil spray for the control of scale insects, spruce gall, mealy bugs, red spider, aphids, leaf rollers on evergreens, fruit trees, small fruits, shade trees and ornamentals. 1-qt. can \$1.15.

PARA-SCALECIDE—FOR TREATING PEACH BORER

PARA-SCALECIDE FOR PEACH BORER

This scientific preparation is designed to use diluted around the trunk of peach trees in spring or fall for controlling peach borer. 1-qt. can \$1.45.

BONIDE OVOTOX

This is a NEW and proved scientific formulation designed to be effective against all stages of mites (red spiders) and possesses long residual action. It also contains DDT and Lindane for controlling defoliating insects, leaf miners, aphids, etc. For the control of mildew, rust and leaf spot, it contains Ferbam. This is a three-way spray that our customers have found very effective for spraying evergreens and many other ornamental plants. 8-oz. can \$1.60.

NIAGARA ROTENONE DUST OR SPRAY

Containing .75% Rotenone, this dust or spray is effective in controlling Japanese beetles, European corn borer, corn ear worm, leafhoppers, cabbage worm, flea, beetles, and thrips on glads and onions. 1-lb. canister duster 45c.

ILGENFRITZ GRASS SEED *for Better Lawns*

ILGENFRITZ SUNNY MIXTURE

A top-quality blend of the finest perennial grasses for planting open, sunny or partly shaded areas. Years of experience have led us to this formula as being the best blend for the midwestern area. Containing 69% Kentucky Blue Grass, Highland Bent, Illahee Fescue and Red Top, there are no weedy types of grass seed in this mixture. Lb. \$1.45; 5 lbs. \$6.95; 10 lbs. \$13.75; 25 lbs. \$29.95, not prepaid.

NEW ZEALAND WILD WHITE CLOVER

A comparatively new form of clover in this country, particularly adapted for use in lawns because it is a very rapid creeper, hugging the ground closely and developing many small leaf clusters. Because of this and its summer vigor, New Zealand Clover aids in combating crabgrass. Its white flower heads are fewer and less conspicuous than the normal white Dutch Clover. Lb. \$1.75.

WHITE DUTCH CLOVER

For those who like the vigorous green foliage of White Dutch Clover, we are offering straight clover seed which can be added to other mixtures or planted separately for filling in bare patches. Germinates very quickly. 8-oz. pkg. 85c.

ILGENFRITZ SHADY MIXTURE

This is a blend of tough, sturdy grasses for planting on slopes, play yards and densely shaded areas. Lb. \$1.20; 5 lbs. \$5.95; 10 lbs. \$11.75; 25 lbs. \$27.50, not prepaid.

ILLAHEE FESCUE

An improved form of creeping Red Fescue that makes a dense turf of fine-textured grass. Because of its habit of spreading from its roots, it tends to crowd out weeds. Withstands dry weather and thrives in both sunny and shaded spots. 5-lb. bag \$7.50, not prepaid.

DOMESTIC RYE GRASS

This is a quick-growing annual grass that may run into the second year. It is particularly useful for cheap temporary lawns. 5-lb. bag \$1.49, not prepaid.

PERENNIAL RYE GRASS

A fast-growing, tough grass that is often used on play yards or wherever heavy usage is expected. 5-lb. bag \$2.75, not prepaid.

ILGENFRITZ Garden Shop, continued

ANT-X—ANT JELLY BAIT

A quick killer for sweet and grease-eating ants. Kills them in the nest. 1-oz. garden size tube 35c.

RODENT EXTERMINATORS

MOLE-NOTS

Try this for killing moles in their holes. 1-oz. garden size 35c; 6-oz. estate size \$1.00.

MOUSE-NOTS

Ready to use. No fuss—no muss—no traps. 1-oz. household size 25c.

RAT-NOTS

Ready to use rat killer. 1-oz. household size 25c.

NOTT'S RAT-TU

Containing 25% antu, Rat-Tu kills rats by contact. Dust Rat-Tu in the mouth of rat holes and along runways. Rats walk over this powder, lick their feet and die. 1½-oz. canister duster 60c.

DOG-CHECK

Harmless to dogs and cats, Dog-check is a scientific preparation designed to repel dogs and cats. Each package contains applicators. 3-oz. bottle 60c; 8-oz. bottle \$1.00.

GOOD-RITE RABBIT NO-NIB'L

Here is a comparatively new scientific preparation designed to repel rabbits from around shrubs, flowers and certain vegetables. It does not harm the plants, nor does it cause any permanent injury to birds or animals. 6-oz. can \$1.25.

WEED KILLERS

NEW IMPROVED WEEDONE

Contains 2,4-D, plus 2,4,5-T, the two most effective chemicals for killing lawn weeds, poison ivy, poison oak, brambles and other woody plants. It kills weeds without killing grass. 8-oz. can, covers up to 1200 sq. ft., \$1.00; 1-qt. can, covers up to 5000 sq. ft., \$2.95.

CRAG HERBICIDE. NEW!

This is a new type of weed killer for controlling broad-leaved weeds and grasses in asparagus, corn and gladiolus. It has also been widely used on strawberries. Once your garden area is free of weeds, you can spray Crag directly on your glads, asparagus or corn to prevent new weed growth. 4-oz. pkg., treats about 3000 sq. ft., \$1.50.

DU PONT AMMATE

Ammate has no equal for killing poison ivy and many other weeds. It also aids in rotting stumps. It is the recognized chemical for cleaning out weeds on driveways, sidewalks, etc. It can be easily dissolved in water and applied by sprinker or sprayer. Not for lawns. 2-lb. bottle \$1.10, not postpaid.

DRICONURE

This is a very good scientific blend of dehydrated poultry and cow manure with the finest grade of peat moss. It is a fully organic product that is wonderful not only as a fertilizer, but also as a soil conditioner for rejuvenating tired lawns and worn out garden soil. 7½-lb. bag 70c; 25-lb. bag \$1.60; 50-lb. bag \$2.75; 80-lb. bag \$3.90, not prepaid.

FERTILIZERS

RA-PID-GRO

The economy fertilizer, RA-PID-GRO is a complete liquid plant food containing 23% nitrogen, 21% phosphoric acid and 17% potash, plus all essential minor elements and vitamins B₁ and B₂. 8-oz. can 69c; 1-lb. can \$1.25; 2-lb. can \$2.35.

F & B BONE MEAL

This pure bone meal fertilizer contains not less than 24.7% nitrogen and 23% phosphoric acid. It is an excellent organic fertilizer that is slow acting and very safe to use. For outdoor use it can be applied 1 pound for 10 square feet of lawn or general garden. Very good for all bulbs, flowers, shrubs, evergreens and trees. 5 lbs. 79c; 10 lbs. \$1.40; 25 lbs. \$2.40; 50 lbs. \$4.25; 100 lbs. \$7.95, not prepaid.

G&F—SPECIAL LAWN FERTILIZER

Having a 10-6-4 analysis, this is an extremely fine fertilizer especially prepared for lawn use. Partly organic, it is designed to give both an immediate and a lasting lift for new and old lawns. 1½ pounds covers 100 square feet. 25 lbs. \$1.90; 100 lbs. \$6.00, not prepaid.

SACCO

An economical all-purpose fertilizer for general garden and lawn use, having a 4-12-4 formula. Suggested application: 2½ pounds per 100 square feet. 25 lbs. \$1.50; 100 lbs. \$3.95, not prepaid.

WEDO

This is a particularly good combination weed killer and lawn fertilizer especially prepared for lawn use. Partly organic, it is designed to give both an immediate and a lasting lift for new and old lawns. 1½ to 2 pounds covers 100 square feet. 25 lbs. \$2.75; 100 lbs. \$6.90, not prepaid.

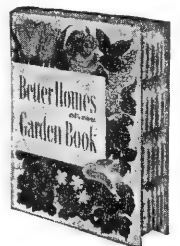

GRANULATED PEAT MOSS

There is nothing like peat moss for conditioning poor soils and for retaining moisture. We recommend peat moss very highly for preparing soil around evergreens, shade trees, roses and many other plants. Very good, too, for winter and summer mulching. 2-bus. handy carton \$2.25; ½ bale \$3.95; large bale \$5.95, not prepaid.

BETTER HOMES AND GARDENS GARDEN BOOK

This is a good year-round guide to practical home gardening. With full colored pages and how-to-do-it illustrations, this indexed book is helpful to all types of gardeners. \$3.95.

SPRINKLERS, RAIN KING

MODEL K

This is America's most popular sprinkler with a patented dial control. You can set it to sprinkle 5 to 50 feet automatically. \$8.50.

Model K

MODEL H

Adjustable for coarse or medium sprinkling, it can be used for revolving or stationary sprinkling. \$7.65.

Model H

MODEL D

An economical revolving sprinkler similar to model H, which will sprinkle areas up to 50 feet. \$5.95.

TO ALL MAIL ORDER CUSTOMERS—All orders of garden shop items are prepaid (unless otherwise noted) on orders of \$5.00 or over. For orders of less than \$5.00 please add 35c to cover postage and handling.

These and many other useful garden accessories are available at our ILGENFRITZ GARDEN STORES

GREEN BARBERRY HEDGE

Green Barberry

Rich green foliage turning to blazing red in the fall. Brilliant red berries throughout fall and winter. The prices listed first are for well-rooted and well-branched, specimen-type plants. 15 to 18 in., 75c each; 30 or more, 65c each. 18 to 24 in., \$1.00 each; 30 or more, 80c each. Economy-grade, 3-yr. seedlings, 6 to 12 in., 25 for \$4.49.

ILGENFRITZ *Hedging*

BARBERRY The best hedge for shady locations, though it will grow equally well in sun. It is very hardy and will do well in any ordinary soil. Of compact, dense, bushy habit, Barberry is one of the few plants that will repel dogs. Set it out in a single row at 10 to 12-inch intervals.

Redleaf Barberry

Bright red foliage all summer. The color develops best in full sunlight. Again, the sizes first listed are full, bushy plants of landscape type that will make an immediate showing. 15 to 18 in., \$1.25 each; 30 or more, \$1.10 each. 18 to 24 in., \$1.45 each; 30 or more, \$1.30 each. Economy-grade, 3-yr. seedlings, 6 to 12 in., 25 for \$6.95.

ROSA MULTIFLORA HEDGE

ROSA MULTIFLORA

A hardy, fast-growing, informal type of hedge. Because of their rapid growth, these plants will quickly form a dense, interwoven hedge or screen. After three or four years, they become so thick that they will even turn livestock on farms. For city use, they are excellent for screening undesirable views. The plants should be set 12 to 18 inches apart. They can be trimmed to any desired size or allowed to grow naturally into a broad hedge that will reach a height of 6 to 8 feet. 15 to 18 in., 50 for \$10.50; 100 for \$20.00.

REDLEAF BARBERRY HEDGE

PRIVET

The varieties listed here are especially hardy and desirable for general hedging purposes. Their upright habit, quick growth and glossy green foliage combine to make a magnificent, full, living fence. They may be planted 8 to 12 inches apart in single rows or a foot apart in double staggered rows that are 6 to 8 inches apart. In either case a straight trench 12 to 16 inches deep should be dug for them.

Amur Privet. A very hardy, tall, upright form with lustrous dark foliage that remains on the plants into early winter.

Ibolium Privet (Hardy California Privet). Large, rich glossy leaves resembling California Privet but much hardier. Will stand as much as 30 degrees below zero without freezing back.

Above two varieties

12 to 18 in., 10 at 40c each; 25 at 35c each; 100 at 30c each
1½ to 2 ft., 10 at 45c each; 25 at 40c each; 100 at 35c each
2 to 3 ft., 10 at 55c each; 25 at 50c each; 100 at 45c each
3 to 4 ft., 10 at 70c each; 25 at 65c each; 100 at 55c each

AMUR PRIVET HEDGE

ILGENFRITZ Flowering and Ornamental Trees

MAGNOLIA SOULANGEANA

MAGNOLIA BLOOMS ARE SPECTACULAR

- Dolga.** A spectacular dual-purpose tree that seldom grows over 12 feet high. Because of its shapely, neat appearance, the Dolga Crab makes a very fine lawn tree. In spring it bears a mass of large single white blooms and in fall a large crop of bright red fruit that makes excellent jelly. 3 to 4 ft., \$3.00 each; 3 at \$2.75 each. 4 to 5 ft., \$4.50 each; 3 at \$4.25 each. 5 to 6 ft., \$6.00 each; 3 at \$5.50 each.
- Eley.** One of the best landscape varieties, distinguished by its reddish purple foliage. A very free-blooming tree with large, single, purplish red blooms. It grows about 15 feet tall. 3 to 4 ft., \$3.00 each; 3 at \$2.75 each. 4 to 5 ft., \$4.50 each; 3 at \$4.25 each.
- Floribunda.** If you want a tree that will bloom even in small sizes, here is a "must." Its plentiful, showy pink buds and blooms are a favorite in the garden. The tree is of spreading habit, of medium height and bears red, pea-sized fruit. Very choice as a low lawn tree. 3 to 4 ft., \$3.00 each; 3 at \$2.75 each. 4 to 5 ft., \$4.50 each; 3 at \$4.25 each.

in a wide range of color. Beautiful for both bloom and fruit.

Atrosanguinea (Carmine Crab). An outstanding Flowering Crab with red buds of startling beauty, opening to an unfading carmine. The dark glossy green foliage changes to bronze in fall. Shiny red fruit makes this a most attractive autumn tree. Grows about 15 feet high. 3 to 4 ft., \$3.00 each; 3 or more, \$2.75 each. 4 to 5 ft., \$4.50 each; 3 or more, \$4.25 each. 5 to 6 ft., \$6.00 each; 3 or more, \$5.50 each.

Bechtel (*Malus ioensis plena*). This very popular and choice variety combines the delicate fragrance of the wild Crabapple with large, double pink blooms that resemble small roses. Its flowers are so numerous that they often hide the branches. Grows about 20 feet tall. 3 to 4 ft., \$4.00 each; 3 at \$3.75 each. 4 to 5 ft., \$5.75 each; 3 at \$5.50 each.

Chinese Flowering Crab (*M. spectabilis*). A beautiful, sweet-scented, semi-double, pink-flowered variety that grows to about 15 feet high. The fruit is yellow. In China it is cultivated for its fruit. 3 to 4 ft., \$3.00 each; 3 at \$2.75 each. 4 to 5 ft., \$4.50 each; 3 at \$4.25 each.

Floribunda atropurpurea. Resembles Floribunda in growth and habit, but its red buds and blooms are sensational. Reddish foliage adds to its appeal. Its strong growth, very heavy bloom and numerous shiny red fruits make this a first-class variety. 5 to 6 ft., \$6.00 each; 3 at \$5.50 each.

Fructo-coccinea. This is a lesser-known one that has been listed by the American Association of Botanical Gardens and Arboretums as a top variety for beauty of both bloom and fruit. Red fruit and delightful pink blooms. 3 to 4 ft., \$3.00 each; 3 at \$2.75 each. 4 to 5 ft., \$4.50 each; 3 at \$4.25 each.

Gloriosa. A beautiful hybrid of compact, pyramidal form, with bronzy foliage. The blooms are purplish rose. This is truly a magnificent sort. 4 to 5 ft., \$5.00 each; 3 at \$4.50 each. 5 to 6 ft., \$6.50 each; 3 at \$6.00 each.

Hopa. Outstanding in every way. In spring it produces masses of lovely pink, fragrant blooms, followed in fall by showy red fruit that makes tasty jelly. Of fast growth and very easy culture. 3 to 4 ft., \$3.00 each; 3 at \$2.75 each. 4 to 5 ft., \$4.50 each; 3 at \$4.25 each.

Redvein (*M. sylvestris Niedzwetzkyana*). The reddish cast of the twigs, leaves and blooms distinguishes this popular type. The red fruit is useful for making jelly. 3 to 4 ft., \$3.00 each; 3 at \$2.75 each. 4 to 5 ft., \$4.50 each; 3 at \$4.25 each. 5 to 6 ft., \$6.00 each; 3 at \$5.50 each.

Sargent. One of the smallest of the Flowering Crabs, spreading and shrub-like in habit and growing only 6 or 8 feet high. In fall it produces vivid scarlet fruit that often stays on the tree most of the winter. 3 to 4 ft., \$4.00 each; 3 at \$3.75 each.

Scheidecker. A beautiful double pink, this variety has a more distinctive pyramidal form than most Crabs. The blooms resemble those of Bechtel; the fruit is yellow. Grows to about 15 feet. 3 to 4 ft., \$3.00 each; 3 at \$2.75 each. 4 to 5 ft., \$4.50 each; 3 at \$4.25 each. 5 to 6 ft., \$6.00 each; 3 at \$5.50 each.

Zumi calocarpa. Another outstanding variety that has been chosen as a leader because it is beautiful in both bloom and fruit. It has handsome, bright red fruit and large pink flowers. A very strong grower that reaches 12 to 15 feet high. 3 to 4 ft., \$3.00 each; 3 at \$2.75 each. 4 to 5 ft., \$4.50 each; 3 at \$4.25 each.

Flowering Crab COLLECTION

Chosen for their variety of bloom, attractive fall fruit and beauty of foliage, here is a group of Flowering crabs that will give distinction to any yard. These magnificent trees are at their best planted in groups of three.

- 1 **Dolga.** White flowers and red fruit.
- 1 **Floribunda.** Pink flowers and red fruit.
- 1 **Eley.** Red flowers and purplish red foliage.

An Outstanding Group of Three Trees, 3 to 4-foot grade, only

\$7.95

BEAUTIFUL GLORIOSA FLOWERING CRAB, WITH DOLGA IN BACKGROUND

SCHEIDECKER CRAB

MAGNOLIA

M. soulangeana (Saucer Magnolia). Probably the best known and hardiest of all Magnolias. It produces very large, showy, cup-shaped, purplish pink flowers before the leaves appear in early spring. The branches usually come from the ground, making this a very bushy specimen. The leathery leaves are a beautiful glossy green. 3 to 4 ft., B&B, \$12.00 each; 4 to 5 ft., B&B, \$18.50 each; 5 to 6 ft., B&B, \$23.50 each.

M. virginiana (Sweetbay Magnolia). A deciduous or sometimes partly evergreen shrub or tree that will grow to as much as 25 feet high. The large, fragrant, white blooms are lily-like in appearance. If grown in a moist acid soil, it will sometimes bloom occasionally through the summer. Oval, glossy leaves as much as 6 inches in length. In fall it develops attractive red fruit. 3 to 4 ft., B&B, \$6.75 each; 4 to 5 ft., B&B, \$12.00 each.

FLOWERING CRABS

Every home should have one or more of these beauties in its landscape plan. These trees are very hardy and easy to grow, bearing extremely heavy crops of flowers

CUTLEAF WEEPING BIRCH

BIRCH

Cutleaf Weeping Birch. Nothing provides a more graceful or ornamental accent than this charming white-barked tree. Its deeply cut leaves give a fountain-like appearance to the weeping branches. The showy white bark is attractive the year round. Grows to 35 or 40 feet high. 5 to 6 ft., \$5.25 each; 3 or more, \$5.00 each. 6 to 8 ft., \$7.50 each; 3 or more, \$7.15 each.

European White Birch Clumps. The white bark of this upright form makes this one of our most popular landscape items. It is a most pleasing ornamental or small shade tree growing to about 60 feet high. (Available in 2-stem and 3-stem clumps in spring only.) 5 to 6 ft., \$6.75 each; 6 to 8 ft., \$8.50 each.

FLOWERING PLUM

Purpleleaved Plum (*Prunus*, Newport). An outstanding landscape tree for foliage contrast. Its reddish purple foliage remains throughout the season. Before its foliage appears, the tree is covered with deep pink blooms. Of easy culture, bushy growth and reaches about 20 feet high. 4 to 5 ft., \$4.50 each.

Double-Flowering Plum (*P. triloba*). This is a handsome low-branching, low-growing tree with green foliage, preceded by masses of double pink blooms in April and May. 3 to 4 ft., \$2.75 each; 4 to 5 ft., \$4.50 each.

FLOWERING PLUM, NEWPORT

AMERICAN REDBUD (*Cercis canadensis*)

This very striking small tree or large shrub is quickly becoming one of our most popular flowering trees. In early spring its branches become covered with clusters of rose-pink flowers. These are followed by large, heart-shaped, deep green leaves. It is very effective with dogwoods, flowering crabs and in front of large trees. Growing to about 20 feet, it tolerates some shade. It is often called the Judas Tree. 3 to 4 ft., B&B \$8.25 each; 4 to 5 ft., B&B, \$12.00 each; 5 to 6 ft., B&B, \$17.50 each. (Note: Balled and Burlapped sizes cannot be shipped.)

AMERICAN REDBUD

PAULS SCARLET THORN

An ornamental tree that is very beautiful both for its masses of double scarlet bloom in spring and for its bright red fruit in fall. An upright, pyramidal variety that grows 15 to 20 feet high. 6 to 8 ft., \$11.95 each.

EUROPEAN MOUNTAIN ASH (*Sorbus aucuparia*)

A very fine ornamental tree of pyramidal growth, with feathery foliage. Showy clusters of white flowers in spring are followed by scarlet berries in autumn. Grows 25 to 30 feet tall. 5 to 6 ft., \$5.75 each; 6 to 8 ft., \$6.75 each.

FLOWERING PEACH

Double-Flowering Peach. Just the thing for a colorful accent. Quite rapid in growth and blooms very young. Large double flowers are among the showiest of all ornamental trees. Available in White, Pink, Red and Peppermint Stick. 3 to 4 ft., \$2.25 each; 4 to 5 ft., \$3.00 each.

Redleaved Peach (*P. persica atropurpurea*). NEW. Here is a three-purpose tree. Its blood-red foliage forms an effective contrast with other green foliage. Profuse, deep rose-colored blooms appear before the leaves and are followed by edible fruit that is wonderful for pickling. 3 to 4 ft., \$2.25 each; 4 to 6 ft., \$3.00 each.

GOLDENCHAIN TREE (*Laburnum vossii*)

A rare tree of remarkable beauty—one of the few yellow-flowered ornamental trees. Its long, drooping racemes of pea-like blooms make it very graceful and desirable. Height 20 feet. 4 to 5 ft., \$5.75 each; 5 to 6 ft., \$8.75 each; 6 to 7 ft., \$10.75 each.

**For Beauty of Bloom Attractive Fruit
Blazing Foliage**

Try This Flowering Tree Collection—\$8.75

1 Purpleleaved Plum, 4 to 5 ft. 1 Zumi Calocarpa Crab, 3 to 4 ft.
1 Flowering Peach, 3 to 4 ft. (your choice of color).

Save \$1.00. All Three Only \$8.75

GOLDENCHAIN TREE (LABURNUM VOSSI)

ILGENFRITZ *Shade Trees*

Every home requires a green background to make it look its best. Careful choice of the best trees for the right spots will not only give this setting but will add beauty and value to your home. Why not plant Ilgenfritz quality trees on your property?

MAPLE

The Maple family gives us the best and most popular shade trees for northern areas. They are very hardy, free of disease and easy to grow. Their beautiful foliage and fall color enhance the attractiveness of any home.

NORWAY MAPLE. Most highly recommended for street and general use. It is a very handsome tree with large, dark green leaves that turn yellow in autumn. Though it has wide-spreading branches, it forms a dense head that seldom grows over 75 feet high. 6 to 8 ft., \$9.00 each; 8 to 10 ft., \$12.00 each; 1¼ to 1½-in. cal., \$16.50 each.

RED MAPLE. Frequently used for landscape purposes because of its bright red fall color. A picturesque tree, very hardy and rapid in growth. It is tolerant of shade and likes plenty of moisture. Height 65 feet. 6 to 8 ft., \$8.50 each; 8 to 10 ft., \$12.00 each; 1¼ to 1½-in. cal., \$15.50 each.

SCHWEDLER MAPLE. No other tree can equal this splash of flaming red in spring. Gradually its leaves change to bronzy green in summer and then golden yellow in fall. Otherwise, this magnificent tree, which has proved very popular with us, is like a Norway Maple. 6 to 8 ft., \$11.50 each; 8 to 10 ft., \$15.50 each; 1¼ to 1½-in. cal., \$20.50 each.

SILVER MAPLE. Very well liked because it is the fastest-growing Maple. As it grows, it develops a large, spreading head that may reach 75 feet in height. It has distinctive silvery leaves and bark. Usually the leaves turn to very showy colors in fall. 6 to 8 ft., \$4.95 each; 8 to 10 ft., \$6.75 each; 1¼ to 1½-in. cal., \$9.50 each.

SUGAR MAPLE. Commonly referred to as the Hard Maple, this is a shade tree of rapid growth, grand proportions and wonderful autumn foliage. Height 75 to 90 feet. 6 to 8 ft., \$8.50 each; 8 to 10 ft., \$12.00 each; 1¼ to 1½-in. cal., \$15.50 each.

ELM

←
BEAUTIFUL SPRING
FOLIAGE OF THE
SCHWEDLER MAPLE

quite rapidly into a tremendous tree with long, arching branches. 6 to 8 ft., \$3.50 each; 8 to 10 ft., \$4.75 each; 1¼ to 1½-in. cal., \$5.95 each.

CHINESE ELM. One of the fastest growing of all trees, the Chinese Elm will give very quick shade and is particularly good for screening and windbreak purposes. It is a smaller tree with shorter branches and smaller leaves than the well-known American Elm. Grows 50 to 60 feet tall. 5 to 6 ft., \$2.50 each; 6 to 8 ft., \$3.50 each; 8 to 10 ft., \$5.50 each.

BOLLEANA POPLAR

A very striking, tall, columnar tree with unusual grayish green foliage that is silvery on the underside. Because of that, it is especially showy when the wind is blowing. Excellent for screening and accent use. Grows 50 to 60 feet high. 5 to 6 ft., \$2.75 each; 6 to 8 ft., \$4.50 each; 8 to 10 ft., \$5.25 each; 10 to 12 ft., \$6.75 each.

SYCAMORE (American Planetree)

Here is a large, stately tree that is broad spreading and very fast growing. Its leaves are large and maple-like in shape. As the tree grows older, the bark becomes very smooth creamy white. Grows 75 to 90 feet tall. 6 to 8 ft., \$9.00 each; 8 to 10 ft., \$12.00 each.

NORWAY MAPLE

SUGAR MAPLE

Rare! RIVERS COPPER BEECH

COPPER BEECH (Rivers European Beech)

RARE. For the first time, we are able to offer this spring a small size of this rare and beautiful tree of noble, symmetrical growth. It has particularly showy, bronzy purple leaves, which remain on the tree throughout the winter. (Available in spring only.) 2 to 3 ft., in peat balls, \$12.00 each.

HONEYLOCUST

HONEYLOCUST (*Gleditsia triacanthos*). A broad-headed, picturesque tree with slightly pendulous branches and feathery foliage. Because of its white flowers in May and its fine-cut foliage, this thorny tree serves as both an ornamental and a shade tree. Grows 60 to 75 feet tall. It is fast growing. 6 to 8 ft., \$6.00 each; 8 to 10 ft., \$9.00 each; 1¼ to 1½-in. cal., \$12.00 each; 1½ to 1¾-in. cal., \$17.50 each.

MORaine LOCUST. Pat. 836. **NEW.** A magnificent new rapid-growing tree that is distinguished by its lack of thorns and seed pods. The finely divided, graceful foliage turns yellow in fall. Excellent for street or lawn use. Height 60 to 75 feet. 5 to 6 ft., \$6.00 each; 6 to 7 ft., \$8.00 each; 7 to 8 ft., \$10.00 each.

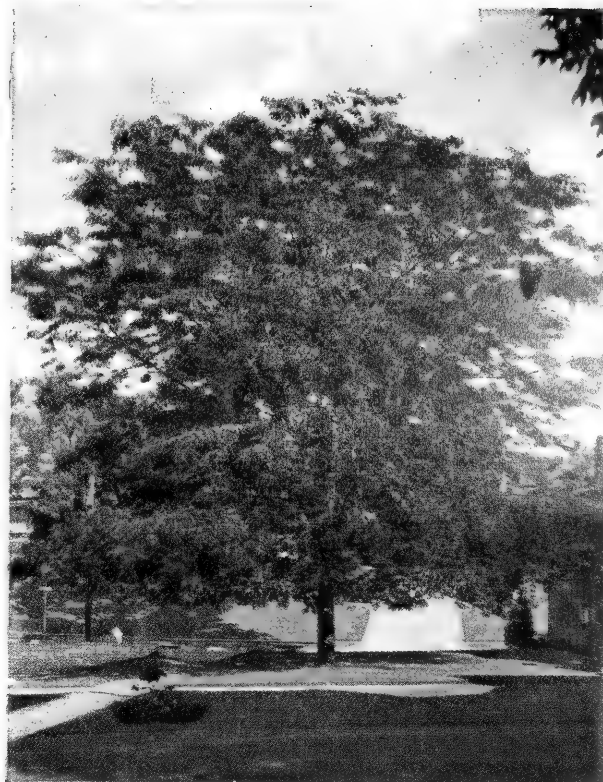

WISCONSIN WEEPING WILLOW

One of the most graceful of all, this fast-growing, wide-spreading tree sends out long, drooping branches that sometimes reach the ground. The artistic Weeping Willow serves very well as an accent or background tree. 5 to 6 ft., \$3.50 each.

New!

Crimson King Maple Pat. 735

Here we have a new red-all-summer Maple. It is the only Maple that retains this bright crimson color through the summer. Otherwise, it has the same shape and habit of growth as its parent, the popular Norway Maple. 6 to 7 ft., \$7.50 each; 7 to 8 ft., \$9.50 each.

New! MORaine LOCUST Pat. 836

5 to 6 ft., \$6.00 each; 6 to 7 ft., \$8.00 each;
7 to 8 ft., \$10.00 each

New! CRIMSON KING MAPLE Pat. 735

6 to 7 ft., \$7.50 each; 7 to 8 ft., \$9.50 each

ILGENFRITZ *Broadleaf Evergreens.*

CELASTRUS SCANDENS

(American Bittersweet)

One of the most ornamental of our hardy northern vines, this striking plant will climb as much as 20 feet by twining. Its brilliant red and yellow berries make an excellent fall showing outdoors and are very good, too, for winter bouquets. Will grow in sun or shade. \$1.50 each; 3 or more, \$1.35 each.

ARISTOLOCHIA SIPHO

(Dutchmans Pipe)

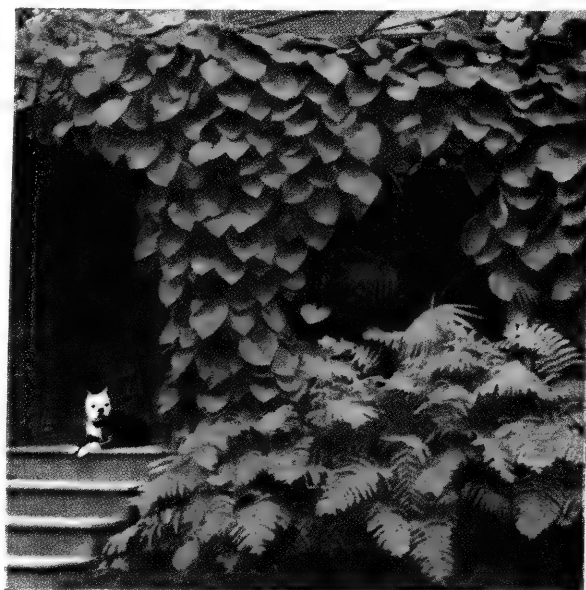

A very vigorous, twining vine with peculiar flowers shaped somewhat like a small curved Dutch pipe. The large green leaves reach a tremendous size, so it is often used for screening purposes on porches and fences. \$3.00 each; 3 or more, \$2.75 each.

LARGE-FLOWERING CLEMATIS

BRILLIANT BERRIES OF AMERICAN BITTERSWEET

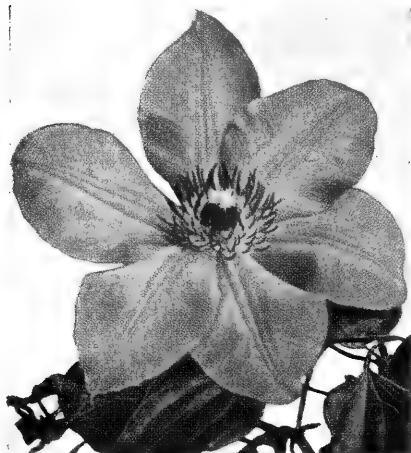

These are very charming and colorful vines because of their long and profuse blooming habit. They are beautiful on fences, arbors and trellises. The vines do not have tendrils but will climb by means of twining about their support. They will thrive in full sun or part shade. The Clematis family prefers an alkaline soil. If your soil is acid, apply lime to it. Keep the ground mulched and undisturbed about Clematis roots.

This year we offer two grades: landscape-grade, blooming-size specimens in 5-inch pots and standard grade in 2½-inch pots.

DUTCHMANS PIPE

Giant-Flowering Clematis

RAMONA

NELLIE MOSER

VILLE DE LYON

Henryi. Dazzling white. Produces large quantities of blooms up to 6 inches across. Grows about 8 feet tall. (Available in standard grade only.)

Jackmani. Violet-colored flowers from July till September. (Available in both large and standard grades.)

Mme. Le Coultre. Very large white. (Available in large grade only.)

Nellie Moser. Mauve and red flowers 5 to 10 inches across. Blooms freely. (Available in large grade only.)

Ramona. Tremendous blue flowers 5 to 10 inches across. (Available in standard grade only.)

Ville de Lyon. A red-flowered hardy hybrid. Grows 12 feet tall. (Available in large grade only.)

ALL CLEMATIS

Large landscape grade in 5-in. pots, \$4.75 each; 3 or more, \$4.50 each
Standard grade in 2½-in. pots, \$1.95 each; 3 or more, \$1.75 each

RHODODENDRON

Here we have the king of broadleaf evergreens and one of the handsomest of all shrubs. Rhododendrons are acid-loving plants that need plenty of peat moss in the soil. They thrive best in sheltered, shaded spots.

R. catawbiense grandiflorum. A magnificent spreading evergreen shrub growing about 6 feet tall. Its purple flowers are borne profusely, giving the plant a great amount of color. A marvelous landscape variety. 12 to 15 in., in peat moss balls, \$4.69 each.

R., Cunningham White. A thick-leaved, full, beautiful white variety that has proved very popular. It is a taller-growing type often used in the background because of its good foliage. Prefers semi-shade. 9 to 12 in., in peat moss balls, \$4.29 each.

Larger sizes of Rhododendrons available at all our branches

HOW TO ORDER

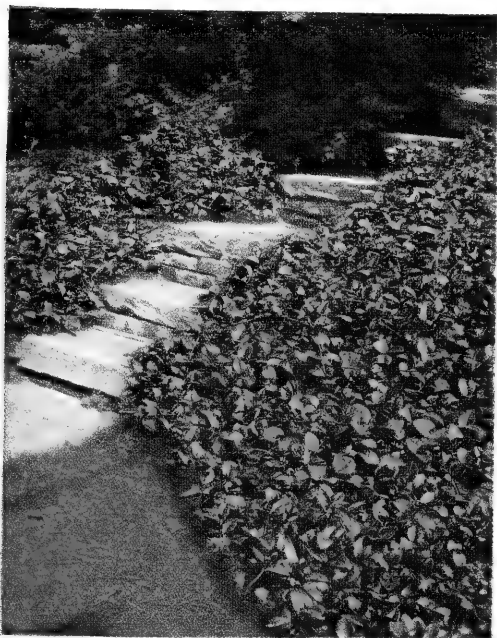

You may order direct from our nearest branch. In this way you may make your personal choice of the plant material you wish. Or, if you live at a distance, mail your order to our Monroe office, where we shall do our utmost to give it our most careful attention so that you will get the highest quality stock.

A convenient order blank with instructions for ordering is attached to this catalog. A return envelope which requires no postage is enclosed for your convenience.

GROUP PLANTING OF RHODODENDRON

Ground Covers and Vines

VINCA MINOR

VINCA MINOR (Myrtle)

This glossy little plant is an extra-good evergreen creeper and ground cover. It bears numerous violet-blue flowers in spring. While it will grow well in sun, it will also thrive in considerable shade. Can be used on banks, in foundation plantings, borders and under trees. Well-rooted plants, 10 at 30c each; 50 at 20c each; 100 at 15c each.

POLYGONUM

P. auberti (Silver Lace Vine). Pictured here, the Silver Lace Vine is the fastest growing of all the hardy vines. From midsummer till fall, it produces clouds of feathery white flowers. It prefers sun and can be used as a ground cover as well as a vine. \$1.50 each; 3 at \$1.35 each.

P. Reynoutria (Dwarf Pink Lace). This handsome ground cover is comparatively new. Easy to grow and very hardy, it spreads quite rapidly from underground runners. Growing about 6 inches high, it thrives best in full sun where its pale green foliage will turn to brilliant scarlet in fall. It sends up numerous showy heads of pink blooms in autumn, similar to the white form shown here. Well-rooted plants, 10 at 90c each; 30 at 75c each. Established plants in 5-in. pots, \$1.75 each.

SILVER LACE VINE (Polygonum auberti)

EUONYMUS

Euonymus are valued for their evergreen or partly evergreen foliage. They are very handsome plants of great landscape usefulness for the modern type home.

E. fortunei coloratus (Purple-leaved Wintercreeper). A ground cover of unbelievable beauty. The prostrate habit of growth makes it useful for covering low walls, rock gardens, banks and for planting in borders in front of taller plants. In summer the foliage is tinged purple, but in winter it turns brilliant purple, making it the most beautiful of all ground covers in winter. 8 to 12 in., 85c each; 30 at 75c each; 100 at 69c each.

E. fortunei vegetus (Bigleaf Wintercreeper). A fine landscape plant of many uses. It can be trained to climb and cling to walls, can be used as a hedge or as a specimen shrub. It has excellent partly evergreen foliage and very attractive berries. 8 to 12-in. plants in 5-in. pots, \$2.50 each; 3 at \$2.25 each.

E. patens (Spreading Euonymus). A dwarf, upright evergreen that is easy to grow. Small white flowers in spring, followed by showy orange-red berries. A compact, shapely shrub, which is just as wonderful as a specimen as for hedging. It will grow well in sun or considerable shade and enjoys being trimmed. 9 to 12-in. plants in 5-in. pots, \$2.25 each; 3 at \$2.00 each.

PACHYSANDRA TERMINALIS (Japanese Spurge)

Very useful trailing evergreen ground cover for planting in shrub borders, foundation plantings, banks, etc. One of the finest ground covers for use in extremely heavy shade where nothing else will grow. Well-rooted runners, 10 at 35c each; 50 at 25c each; 100 at 18c each. Established plants in 2½-in. pots, 55c each; 10 at 45c each; 100 at 35c each.

AMPELOPSIS TRICUSPIDATA (Boston Ivy)

A splendid rapid-growing vine for covering walls. It will cling to brick, concrete or stone by means of tendrils. In summer the foliage creates a thick glossy green cover, while in fall it changes to beautiful shades of red. \$1.50 each; 3 or more, \$1.35 each.

IVY (Hedera)

Baltic Ivy. This is one of the hardiest of the evergreen forms of Ivy. It will climb and cling to any rough surface. Can be used as a vine or ground cover, but prefers shade. 2½-in. pots, 95c each; 30 at 75c each; 100 at 60c each.

Caenwoodiana Ivy. NEW. A new hardy evergreen Ivy that is distinguished by a considerable variation of leaf size and shape. Usually its leaves are more pointed and indented than Baltic Ivy. Excellent ground cover or climber. 2½-in. pots, 95c each; 30 at 75c each; 100 at 60c each.

GOLDFLAME HONEYSUCKLE

Everblooming Hardly *Practically Evergreen Delightfully Fragrant*

HONEYSUCKLE

Goldflame Honeysuckle. An outstanding new everblooming vine with fragrant, dazzling red and gold blooms. \$1.75 each; 3 or more, \$1.60 each.

Hall Japanese Honeysuckle. This splendid vine or ground cover bears very fragrant, creamy white blooms. Leaves remain on the plants so well that it could almost be called evergreen. Very vigorous and easy to grow. 95c each; 30 or more at 75c each.

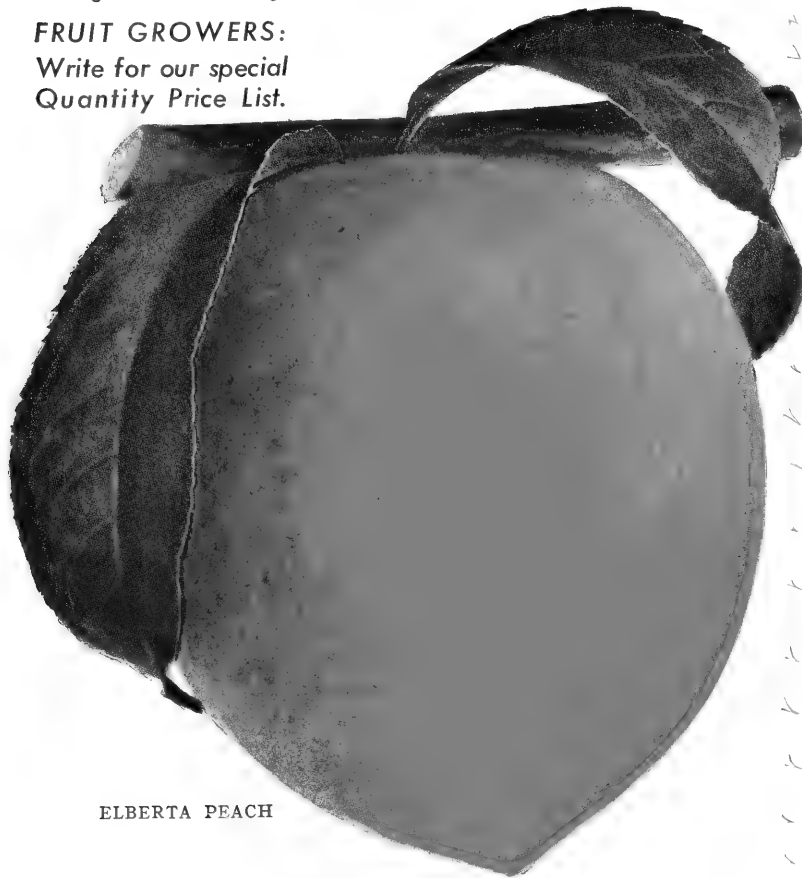

BALTIC IVY

ILGENFRITZ *Fruit Trees*

We have been growing fruit trees here in Monroe ever since the firm was founded in 1847. Imagine over 100 years of continuous nursery experience! We have always endeavored to give our customers the best varieties and the best quality available. Because of that, old customers come to us year after year for quality fruit stock—even generation after generation.

Quantity Price List.

ELBERTA PEACH

ILGENFRITZ APRICOTS

- ✓ **EARLY MONTGAMET.** Large, golden yellow Apricot of good flavor and fine quality. Ripening about July 5, it is excellent for preserving.
- ✓ **LAMALE.** Large, round, deep yellow variety with a red cheek. It bears quality fruit of excellent flavor that ripens in the middle of July.
- ✓ **MOORPARK.** Very large, orange-yellow fruit that has a delightful flavor. A very heavy producer, ripening in August.

ALL APRICOT TREES

LARGE 5 to 7-ft. trees, $\frac{3}{4}$ -in. cal., \$3.00 each; 5 or more at \$2.75 each.
5 to 6-ft. trees $1\frac{1}{16}$ -in. cal., \$2.75 each; 5 or more at \$2.50 each.
(Not prepaid)

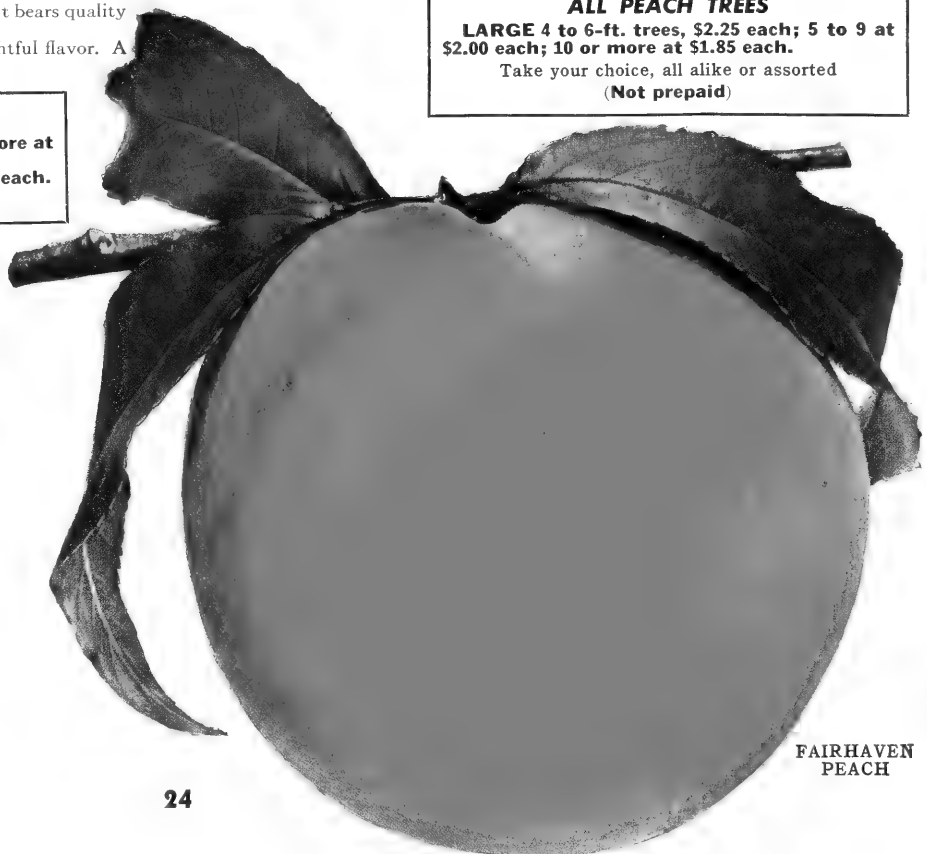

LAMALE APRICOT

ILGENFRITZ PEACHES

- ✓ **AMBER GEM.** This very popular canning Peach is available once more. Very large in size, it is a bright red tinged yellow. Very hardy and heavy producing, this clingstone has a sweet and delicious flavor. Ripens slightly before Elberta.
- ✓ **BELLE.** Very large, fine-quality white fruit which ships very well. It ripens a week to 10 days before Elberta and has a fine red color. Probably the leading white Peach.
- ✓ **CHAMPION.** An early white of good size and excellent quality. One of the best for the home orchard and local markets. Ripens in mid-August.
- ✓ **CUMBERLAND.** Large, attractive white Peach of excellent quality. A good roadside variety ripening about August 5 to 12. Attractively colored red.
- ✓ **EARLY ELBERTA.** An Elberta type of superior size and color, ripening 5 to 10 days before the regular Elberta. A yellow freestone.
- ✓ **ELBERTA.** The most widely planted of all Peaches, this popular variety has firm flesh and good flavor. It is a yellow freestone ripening in mid-September.
- ✓ **FAIRHAVEN.** A large, highly colored freestone that is wonderful for freezing. It is a new variety of the perfect Haven type, ripening in mid-August. Ships very well.
- ✓ **GOLDEN JUBILEE.** An unusually hardy, heavy annual bearer. Considered one of the best of the early varieties, both for home and local market use. It is medium to large in size, of fine flavor and color. A yellow freestone ripening in mid-August.
- ✓ **HALEHAVEN.** Currently, this is the most popular of all Peaches, for both home owners and growers. Every Peach is of excellent size and color. Ripens late in August.
- ✓ **JERSEYLAND.** NEW. Here is a large, firm, yellow freestone that bids strong to become a leader among early sorts. It ships well, sets fruit freely and bears early. It ripens a few days before Golden Jubilee.
- ✓ **KALHAVEN.** A new member of the Haven family. Very large, very well colored, rich and juicy. Ripens a few days after Elberta and ships well.
- ✓ **NEW DAY.** NEW. Large, attractive yellow Peach that colors well before picking. It stands both handling and shipping very well. The fruit is firm and hangs on the tree well. Though it may sometimes be partly clingstone, it has fine market value. Ripens August 20 to 25.
- ✓ **MIKADO.** Probably the finest of the very early varieties, Mikado is a large yellow-skinned Peach with a red blush. A heavy bearer, it is sometimes called July Elberta because it ripens July 15 to 20.
- ✓ **REDHAVEN.** Rapidly becoming a leading commercial variety because of its brilliant red coloring, excellent size and early ripening habit. It handles and ships very well and is good for all purposes, including freezing. Ripens about 10 days before Halehaven.
- ✓ **RIO-OSA-GEM.** Pat. 84. NEW. Excellent for both home and commercial use. It is of very large size, with wonderful flavor and color. A yellow freestone ripening September 5 to 15.
- ✓ **SHIPPER'S LATE RED.** A late Elberta, which is usually larger and more beautifully colored. As its name indicates, it ships well. Ripens 10 days after Elberta.
- ✓ **SUNHIGH.** NEW. Promising commercial variety that colors very well before it ripens. It may be partly clingstone till ripe. Ripens about two weeks before Elberta and commands good market prices.
- ✓ **TRIOGEM.** Comparatively new, Triogem is a nearly fuzzless, firm yellow freestone. Fine quality and good size. It ripens about August 20.
- ✓ **VALIANT.** NEW. A very hardy, heavy-producing "V" Peach introduced from Canada. The color is bright red over yellow. Exceptionally fine quality and flavor. Ripening around September 1, it is much preferred to Elberta by our Canadian neighbors.

ALL PEACH TREES

LARGE 4 to 6-ft. trees, \$2.25 each; 5 to 9 at \$2.00 each; 10 or more at \$1.85 each.

YELLOW
DELICIOUS

RED DELICIOUS

ILGENFRITZ APPLES

- ✓ **BALDWIN.** Large, bright red winter Apple that is excellent for cooking or eating. Stores very well till April.
- ✓ **GALBRAITH BALDWIN.** This is an all-red improved form of the popular Baldwin.
- ✓ **CORTLAND.** Very large, deep red McIntosh seedling that ripens in October, two weeks after McIntosh, and stores till December or later. Very good for eating, cooking or salads. The tree bears young and heavily.
- ✓ **COX ORANGE.** This marvelous old English dessert Apple is not easily obtainable in America. It is a red and yellow variety of medium size, with a flavor that is "out of this world." Wonderful for the home orchard.
- ✓ **RED DELICIOUS.** Juicy and very tasty, this large, highly colored red Apple is fast becoming our most popular one. It bears heavy crops at an early age and keeps from November till March.
- ✓ **EARLY HARVEST.** Light yellow fruit of medium size. One of the earliest of summer Apples. Very good for eating and local market use. Season, July till August.
- ✓ **FAMEUSE (Snow Apple).** One of the finest eating Apples. Medium-sized, red fruit. Its white flesh and distinctive flavor make this something to look forward to every September.
- ✓ **GALLIA BEAUTY (Red Rome).** Magnificent all-red strain of Rome Beauty, which is fine for eating and baking. Large in size. A heavy annual bearer and a good winter keeper. A very popular commercial apple.
- ✓ **GRIMES GOLDEN.** Heavy annual bearer of pink-cheeked yellow Apples that are particularly good for canning and cider. Season, November till January.
- ✓ **JONATHAN.** One of the best commercial and home varieties. Fine quality red fruit for both eating and cooking, which keeps well into winter.
- ✓ **MACOUN.** A comparatively new Apple of McIntosh type and quality. Very highly colored solid red, hanging on the tree better than McIntosh. Ripens one or two weeks after Cortland and one month after McIntosh. A wonderful annual producer.
- ✓ **MCINTOSH.** Probably the leading rich red commercial sort and superb for the home garden, too. It bears young and heavily every year. Season, September till January.
- ✓ **NORTHERN SPY.** Very large, bright red striped Apple that is the finest of all for cooking and especially good for pies. But it is also tasty to eat. Season, November till March.
- ✓ **RED ASTRACHAN.** Green and red striped fruit, always popular in July and August. A crisp, juicy Apple of fine quality.
- ✓ **RED SPY.** Solid dark red Apple of tremendous size and high quality. It bears earlier than the Northern Spy and is one of the best winter keepers.
- ✓ **RHODE ISLAND GREENING.** Very large, greenish yellow cooking variety for late fall and winter.
- ✓ **STAYMAN WINESAP.** An excellent red Winesap of good size and flavor. Commercially, it is one of the best for storage from December till April.
- ✓ **STEELES RED (Red Canada).** Crisp, juicy, highly colored red Apple of wonderful flavor. Of medium size, it is a fine fall sort.
- ✓ **WAGNER.** Popular old bright red, striped Apple that bears young and heavily. Ripens in October but can be stored most of the winter.
- ✓ **WEALTHY.** One of the hardest. An early-bearing tree ripening in September. Attractive rich red fruit of good size.
- ✓ **YELLOW DELICIOUS.** Beautiful, large, golden yellow winter Apple that stores well and has fine flavor.

Other varieties also available

ALL APPLE TREES

LARGE, 2-yr.-old trees, 5 to 7 ft., \$2.50 each; 5 at \$2.25 each; 10 at \$2.00 each
All alike or assorted (Not prepaid)

✓ 5-IN-1 APPLE

Think of it, five varieties of Apple grafted on one tree! These five ripen at different times, producing fruit from summer till the end of the season. If you have only a small space, plant this one tree and have the advantage of several varieties. With these trees there is no cross-pollination problem. This year we have an exceptionally fine block of these trees.

Early Harvest, Kirby Delicious, Anoka, Wealthy and Jonathan are grafted on a sixth variety, McIntosh.

LARGE, 2-yr.-old trees, 5 to 7 ft.,
\$3.75 each; 3 for \$9.95

GALBRAITH BALDWIN

✓ HYSLOP CRABAPPLE

This is the favorite commercial variety. It is dark red and large in size. Season, September till October. Large 2-yr.-old trees, 5 to 7 ft., \$2.50 each; 3 for \$6.75.

MCINTOSH

Plant America

Ilgenfritz Dwarf Apple Trees

Require little space—Bear much younger
Easy to care for
Fruit can be harvested from the ground

Dwarf fruit trees can be planted 15 to 18 feet apart. They are the perfect answer for home owners who wish to have a small orchard in their back yard. Fruit growers, too, are turning to dwarf Apples for quicker crops, easier care and closer spacing.

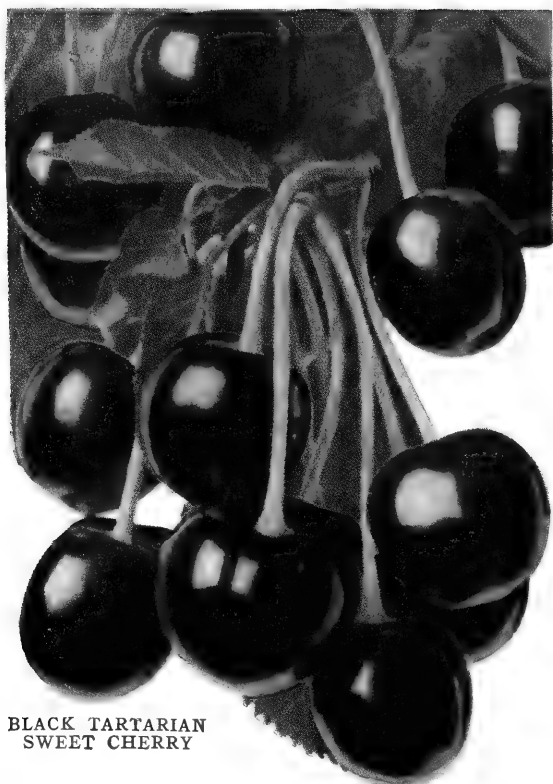

IMPORTANT: In planting these trees, be sure to plant the bud union above the ground level.

Varieties Available

Cortland	McIntosh	Jonathan
Fameuse	Stayman Winesap	Lodi
Gallia Beauty	Red Delicious	Northern Spy
Kirby Red Delicious	Galbraith Baldwin	Tolman Sweet

3 to 5 ft. trees, \$3.75 each;

**BLACK TARTARIAN
SWEET CHERRY**

NOTE: If you are a fruit grower, please write for our Quantity Price List.

MONTMORENCY SOUR CHERRY

The universal favorite for those who like Cherry pies. Montmorency is attractive in color and the largest of all sour Cherries. We believe that we have the finest strains of Montmorency Cherry available. The trees bear very young and produce heavy annual crops. They require no cross-pollination.

Large, $\frac{1}{16}$ -in. diam., 4 ft. and up, \$2.50 each; 3 for \$6.75; 6 for \$12.00
(Write for quantity rates)

ILGENFRITZ Fruit Trees

SWEET CHERRIES

*Wonderful for Eating . . .
Beautiful as Ornamental Trees*

- ✓ **BING.** A large, firm, delicious dark red Cherry. Ripens in early July.
- ✓ **BLACK TARTARIAN.** Very heavy bearer of fine juicy fruit each year. The best of the early sweet Cherries, it is well suited for roadside stands and local markets. Very often used as a pollinizer for other varieties.
- ✓ **HEDELFINGEN.** The last to ripen, this is a large, firm-fleshed, black variety that resists cracking. Growers speak very highly of it.
- ✓ **NAPOLEON** (Royal Ann). Wonderful giant yellow sweet Cherry with a red cheek. A heavy bearer, it is excellent for both home use and shipping. Ripens about 5 days after Bing.
- ✓ **SCHMIDT.** Very large, dark red, firm, juicy and sweet. It is top quality both for canning and for shipping. No finer sort can be grown for the mid-season market. Ripens just before Windsor.
- ✓ **WINDSOR.** A large, dark red, sweet Cherry that is wonderful for keeping and shipping. It is very hardy, an abundant yielder and ripens late. This variety should be in every well-rounded Cherry orchard.

MONTMORENCY CHERRY

ALL THREE of these large trees for only \$6.95

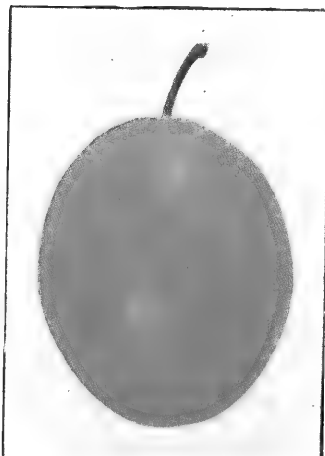

ILGENFRITZ PLUMS

- ✓ **ABUNDANCE.** A very rapid-growing, early-bearing form of Japanese Plum. Brilliant cherry-red, medium size, juicy and tasty. A freestone ripening late in August.
- ✓ **ALBION.** A newer Plum of the Grand Duke type except that it is larger and of better quality. Probably one of the largest of all. The tree is productive and vigorous.
- ✓ **BRADSHAW.** Very large, dark violet-red fruit of excellent quality. A good shipper and keeper. Ripens in August.
- ✓ **FRENCH DAMSON.** A prolific bearer of excellent purple Plums for market use. Considered a freestone, it will occasionally cling. Ripens in September.
- ✓ **GERMAN PRUNE.** One of the oldest planted and still one of the best. It is a dependable bearer of high-quality, dark purple fruit. Ripens in mid-September.
- ✓ **GRAND DUKE.** A very popular late market variety. The fruit is purplish black with firm, sweet, juicy flesh. Ripens about September 20.
- ✓ **GREEN GAGE.** This popular sort freely produces large, greenish yellow fruit that is wonderful for eating and canning. Ripening in early September, it is freestone.
- ✓ **GUEIL.** This is a medium-sized, dark bluish purple Plum that ships very well. Ripens just before most of the prune type. Vigorous and heavy bearing.
- ✓ **ITALIAN PRUNE.** (FELLENBERG.) Here is an old favorite for market and the home garden. The fruit is purple, of good size, juicy and sweet. Ripening in September, it is fine for canning.
- ✓ **LOMBARD.** Ripening in mid-September, Lombard is a showy purplish red fruit that is particularly good for canning and preserving.
- ✓ **STANLEY PRUNE.** Without doubt, the finest and most popular Plum with fruit growers. Large, rich in flavor, deep blue in color and freestone. The tree is hardy everywhere.
- ✓ **YELLOW EGG.** A large, beautiful golden yellow Plum, firm and juicy. It is freestone and ripens in midseason. Suitable for local market or home use.

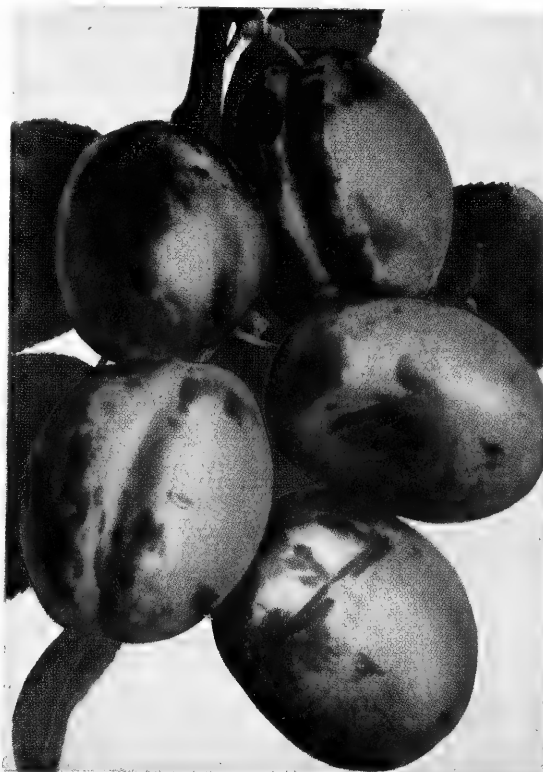

ALL PLUM TREES

Large, 2-yr.-old trees, 5 to 6 ft., \$2.75 each;

YELLOW EGG PLUM

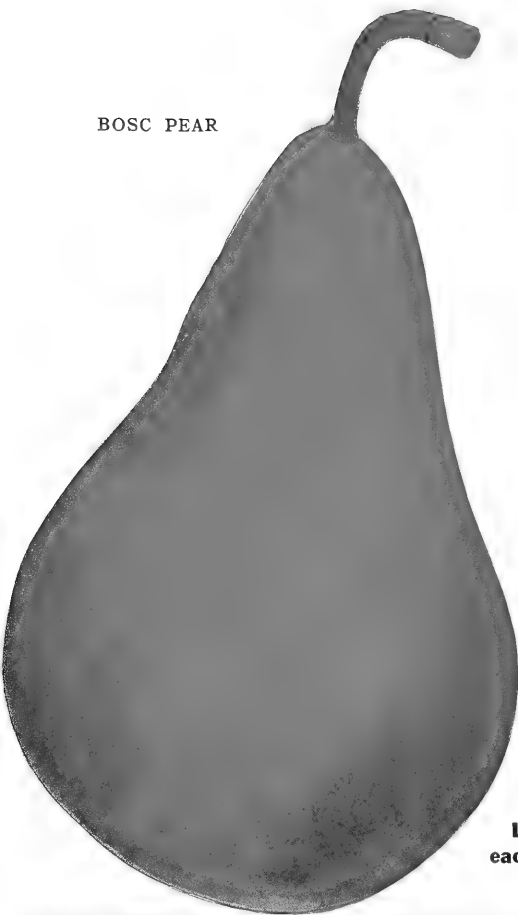

ITALIAN PRUNE

STANLEY PRUNE

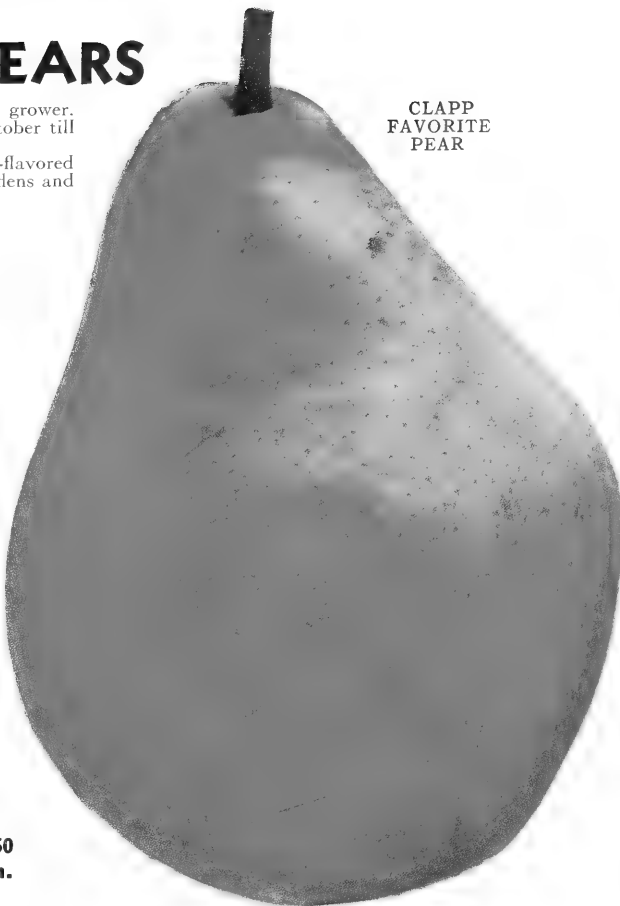

BOSC PEAR

ILGENFRITZ PEARS

- ✓ **ANJOU.** Very productive and a good grower. Large and tasty. Season is from October till January.
- ✓ **BARTLETT.** A large, juicy, fine-flavored Pear which is a favorite in home gardens and orchards. It produces a heavy annual crop that ripens in September.
- ✓ **BOSC.** This is a long, tapering variety of very good size, excellent flavor and good keeping qualities. Bosc is rapidly growing in popularity. Season, October and November.
- ✓ **CLAPP FAVORITE.** Here is a very hardy old favorite that is large, rich and juicy. Ripens late in August, before Bartlett. The fruit is lemon-yellow, mottled crimson.
- ✓ **CONFERENCE.** Medium-sized fruit of excellent quality. Clear yellow with a slight blush. Prolific bearer in midseason.
- ✓ **FLEMISH BEAUTY.** Highly flavored, large and attractive, it is a strong grower and heavy bearer. During September and October, this is a very popular market variety. Good pollinizer for Bartlett.
- ✓ **GORHAM.** Of Bartlett type but ripens two weeks later, thus extending the season because it will keep a month longer.
- ✓ **SECKEL** (Sugar Pear). While it is excellent for eating, this smaller Pear is very popular for pickling and for canning whole. Ripens in September and October.

CLAPP FAVORITE PEAR

ALL PEAR TREES

Large, 2-yr.-old trees, 5 to 7 ft., \$2.50 each; 5 at \$2.25 each; 10 at \$2.00 each. All alike or assorted (Not prepaid)

HOME PEAR ORCHARD—THREE TREES

Chosen for long bearing season and good cross-pollination.

All large, 5 to 7 ft. trees
1 Clapp Favorite 1 Bartlett 1 Bosc

ALL THREE for only \$6.25

(Regular Value \$7.50) Not prepaid

ILGENFRITZ DWARF PEARS

With these small trees you can save space, have more varieties and do all your work from the ground. The trees bear much younger—sometimes the first year planted. They are growing on Quince roots.

Varieties available

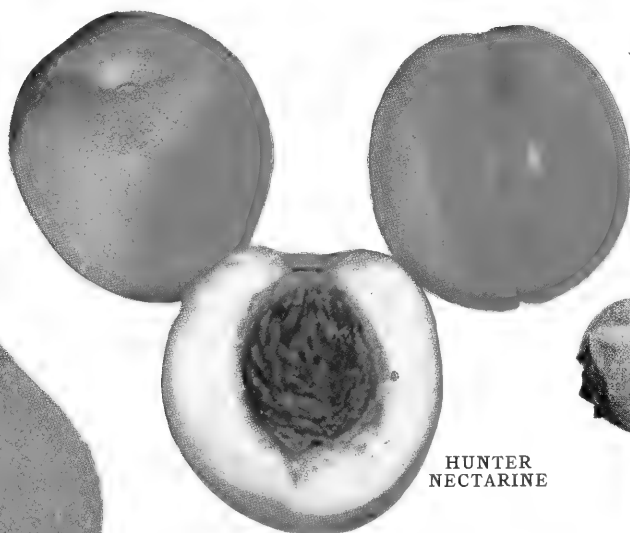

BARTLETT **CLAPP FAVORITE** **SECKEL**
BOSC **DUCHESSE D'ANGOULEME**

2-yr.-old trees, 3 to 5 ft., \$3.25 each; 3 for \$9.00 (Not prepaid)

NECTARINE, HUNTER

One of the largest Nectarines grown, Hunter is a yellow freestone with pink cheek. Nectarines are like peaches in culture and habit but the fruit is fuzzless. In addition, it has a wonderful distinctive flavor and is delightful for eating out of the hand. 1-yr.-old trees, 3 to 4 ft., \$2.50 each; 3 for \$6.75.

Following the standards recommended by the American Association of Nurserymen, we clearly, state all grades throughout our catalog. Our grades are always generous.

HUNTER NECTARINE

QUINCE, ORANGE

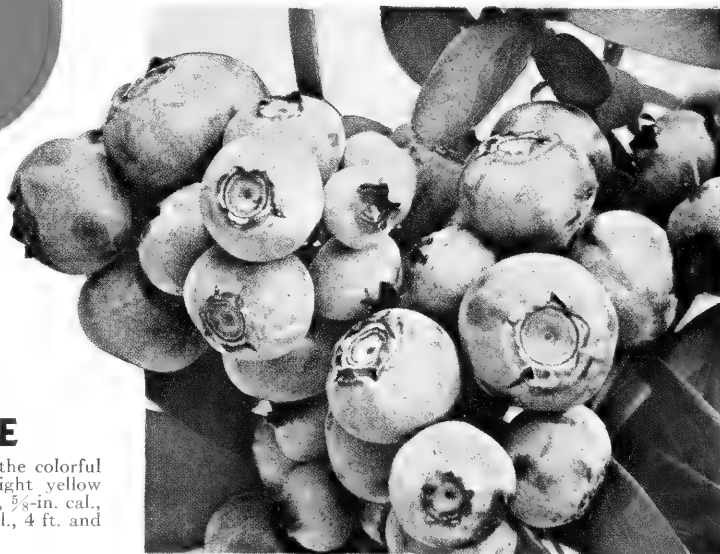

A charming tree both for its fruit and for the colorful ornamental effect of bloom and foliage. Bright yellow fruit of delightful flavor. Large, 2-yr.-old trees, 5/8-in. cal., 5 ft. and up, \$3.00 each; 3 for \$8.25. 1/2-in. cal., 4 ft. and up, \$2.50 each; 3 for \$6.75. (Not prepaid.)

BLUEBERRIES

You can now grow these wonderful giant Blueberries in your garden or commercially. A few bushes will provide enough for the family. The attractive flowers and fine foliage make them excellent ornamental plants as well. We offer only 3-year-old plants, because they do not bear until their third year. Plant more than one variety, for cross-pollination.

✓ **Jersey.** Midseason. ✓ **Rancocas.** Early. ✓ **Rubel.** Late.

3-yr., branched plants; 3 for \$4.75; 6 for \$8.50; 10 for \$14.75
Quantity rates, not prepaid: 50 at \$1.35 each; 100 at \$1.15 each

EVERBEARING STRAWBERRIES

For Fast Results

With these you can have fresh fruit regularly till frost—and they start bearing the first season.

- ✓ **Gemzata.** The outstanding everbearer of today, for both high quality and heavy production throughout late spring, summer and fall. It produces extra-large, firm, fine-textured berries right up till frost.
- ✓ **Streamliner.** Rich in flavor and red throughout, this is an excellent variety for eating, canning and freezing. Its spring crop compares with June varieties, but this one continues to produce all season.
- ✓ **Superfection.** Recently introduced, Superfection is a superior everbearing variety. The berries are exceptionally large, with a sweet, delicious flavor. They are firm and ship well. Bears a heavy spring crop and continues to bear well into fall.

All Everbearing Strawberries

25 for \$3.25; 50 for \$5.75; 100 for \$9.75

PERFECTION RED CURRANT

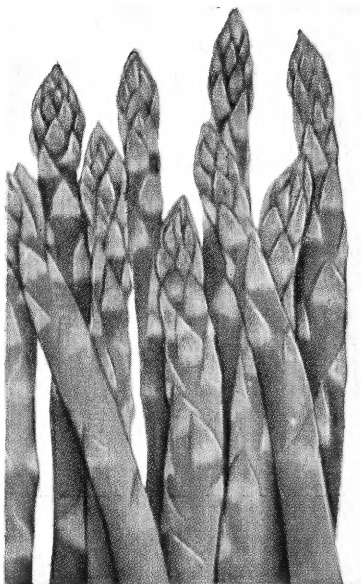

ASPARAGUS

Mary Washington. Long the leading variety, it produces large, tender tips that appear very early in spring. About a dozen roots for each member of the family will give you a good supply. It is best not to use the tips the first year.

2-yr., No. 1 plants

25 for \$2.25; 50 for \$3.75;

CHRYSANTHEMUMS

These easy-to-grow perennials should be in every garden. Wonderful for cutting, there is nothing to equal their beautiful late summer and fall coloring. We offer early-flowering varieties so that you may enjoy their blooms as long as possible.

CUSHION MUMS. These are low-growing, bushy varieties that form wide mounds of beautiful bloom from August till frost. Each plant produces hundreds of blooms.

Capt. J. Smith. Low growing; lavender-pink.

Early Harvest. Early; mahogany-orange.

Golden Carpet. Glowing golden yellow.

Mahogany Cushion. Jasper-red; grows 20 inches tall.

Major Cushion. Lovely bright pink.

Rouge Cushion. Bright red.

White Cushion. Beautiful white.

Yellow Cushion. Pure golden yellow.

LARGE DECORATIVE CHRYSANTHEMUMS. King-sized flowers, these are the magnificent, long-stemmed, double varieties that are wonderful for cutting. They are very colorful, too, in the tall perennial border.

Burgundy. Rich red.

Chippewa. Giant bright purple.

Chris Columbus. New ivory-white.

Kathleen Lehman. Bright orange-gold.

Orchid Helen. Lovely orchid-pink.

Polar Ice. Glistening blue-white.

POMPON CHRYSANTHEMUMS. Wonderful for border use and cutting.

Charles Nye. Large; buttercup-yellow.

Fiesta. Brilliant orange.

SPOON CHRYSANTHEMUMS.

White Spoon. Excellent pure white.

Yellow Spoon. Large; golden yellow.

GLADS

Glads are among the most popular of our summer flowers because they are so spectacular in bloom and are comparatively easy to grow. They are very pleasing when planted in groups in the perennial garden, and they make the most beautiful cut flowers imaginable. Plant 3 to 6 inches deep, according to the texture of the soil. Our named varieties are top-quality jumbo-grade corms. Order yours early.

Bit o' Heaven. Very tall; deep orange with yellow throat.

Burma. Heavily ruffled deep rose.

Elizabeth the Queen. Beautiful ruffled mauve.

General Eisenhower. Huge blooms of deep pink.

Malay Chief. Very dark purplish red, nearly black.

Snow Princess. Very tall; white with milky throat.

Spic and Span. Tall; ruffled deep pink.

Tahiti. Deep rose with white throat.

Tivoli. Large; soft pink.

Vagabond Prince. Unusual mahogany-brown.

Valeria. Popular scarlet-red.

Yellow Herald. Amber-yellow with carmine throat.

BLEEDING-HEART

BLEEDING-HEART (Dicentra spectabilis)

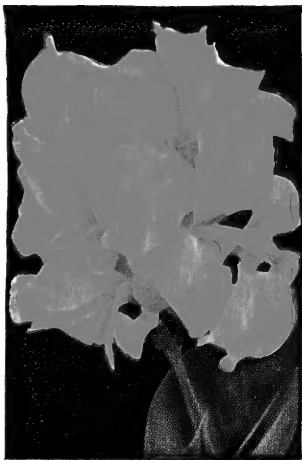

Truly a romantic favorite but also one of the finest of perennials. Its spectacular, heart-shaped flowers are hard to beat for grace and beauty. The spring blooms will adorn any border, and the foliage continues to be attractive throughout the season. Grows about 2½ feet tall and likes semi-shade. Large, 3 to 5-eye plants, 89c each; 3 for \$2.59.

CANNA

Formerly grown for their magnificent foliage, these showy plants are now also raised for their immense trusses of exotic blooms. They are especially useful for bedding purposes and for mass effect. They like a moist rich soil and can be planted 18 inches apart.

Copper Giant. Immense, copper-red flower. 4 ft.

Hungaria. Beautiful clear rose color. Bluish green foliage. 3½ ft.

Red King Humbert. Gorgeous orange-scarlet. Coppery foliage. 5 ft.

The President. Enormous scarlet flowers. Rich green foliage. 4 ft.

Yellow King Humbert. Lovely yellow blooms spotted red. 5 ft.

All Named Varieties, 3 for 65¢; 6 for \$1.15; 12 for \$2.15

GIANT CAMELLIA-FLOWERED

Begonias

If you want something particularly spectacular in your garden, plant some of these brilliant beauties. Their double blooms are tremendous—as much as 5 to 8 inches in diameter. Each flower is different, an exquisite masterpiece. Best of all, once they have started, they continue to bloom through the summer till frost. Like other members of the Begonia family, their leaves are large and beautiful. Wonderful in window boxes, in pots and in the garden.

How to Plant: The tubers can be started early indoors in pots or flats. After frost danger is past, they can be planted outside in their permanent location. To start, plant very shallow in peat moss containing a little sand. Outdoors they like a partly shaded, moist spot in soil with lots of peat moss. They grow 10 to 12 inches high.
